

Teacher Letters

(continued from page 26)

Dear Black Hills Energy,
We appreciate being part of your
LivingWise program. We are a small
Christian school + I have a multi-
grade classroom with 5th-8th grade
all together. I only have one 5th
grader this year, so she lit up like
a Christmas tree when receiving the kit
+ getting to do activities special just
for her. Thank you!
Thank you for helping our
School, Black Hills Energy.

Teacher Letters

(continued)

Black Hills Energy-

Thank you so much for the opportunity to share this great information with my students. Not only did they learn great ways to save energy but they were having fun and excited to do this! It was great to see every day they wanted to learn more about conserving energy and were disappointed when the lessons ended. It was such a wonderful experience to give to students and show them that they can make a difference in the world around them. I hope that you continue sharing this experience with other students in years to come. I know that I will be eagerly waiting to do so next year! Thanks again.

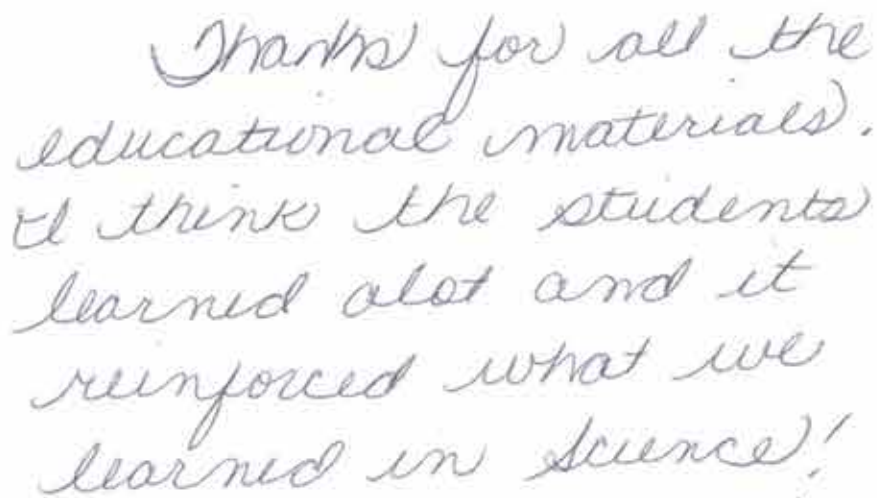

Sincerely,

Kelsey Trimble

5th Grade Teacher

Vandenberg Elementary

Thanks for all the educational materials. I think the students learned alot and it reinforced what we learned in science!
