(continued from page 28)

Dear Living Wise Program,

Thank you for all of the free items. One of the items that I have used was the night light. The night light is in my bathroom. Also the shower head isn't in my shower yet but I really needed a new shower head so thank you.

I showed this to my parents and they were very surprised! They can't believe that you guys would actually do that! My Dad (Jake Killinger) thought that it was very generous! So thank you from everyone in my family!

♥
Hannah
Killinger

Thank
Black Hills Power
You!

Thank You!
Black hills
Energy

I thank you!!!

Student Letters

(continued)

DEAR LIVING WISE PROGRAM,

Thank you for the items (showerhead, faucet aerator, LED lightbulb, the toilet tablet, nightlight & the thermometer). The shower head went into my bathroom, the nightlight went into my bedroom (I'm afraid of the extreme dark). The LED light bulb went into my dad & mom's room. We haven't used the tablets thermometer or the aerator yet. Anyway, the stuff is really great.

Sincerely,
Caleb 5B.

Dear sponsors of Living Wise,

Thank you for providing the money so that we could use the kit. I learned a lot about how to use energy, electricity, and water more wisely. It was very interesting and the worksheets were cool.

Thank You,
Hannah

Dear Sponsors of Living Wise,
Thank you for what you sent to help us learn about saving water and energy. It will definitely help my family. I also learned a lot about to save water and electricity.

Thank You, Hayley

Dear Sponsors of Living Wise,

Thank you for sending us the booklet it really helped learn about saving things. Thank you for sponsoring Living Wise program. Thank you for sending the package full of the helpful things me and my family will really use them.

Thank you,
Grace Antonsen

Dear, livewise sponsor,

Thankyou for the livewise kit. My family uses energy differently now. We used the showerhead, nightlight, and the fossit thing. My baby sister isn't scared of the dark because of the long nightlight that we put in her room. We put the LED light in my room.

Once again, Thankyou

Sincerely,

Lordyn Porosnik
