**RE: Application to the South Dakota Public Utilities Commission for a Facility
Permit for the Crocker Wind Farm EL17-055
Our File: 7101.01**

Dear Sirs:

On behalf of Crocker Wind Farm, I am pleased to give you notice of an upcoming public input hearing convened by the South Dakota Public Utilities Commission to present a brief description of the project in which interested persons may appear and present their views, comments and questions regarding the application.

You are receiving this notice because you are the landowner of record for property within the affected area in Clark County in South Dakota.

Pursuant to law, the Public Utilities Commission will hold a public meeting to take comments from the public. The meeting will be held:

**Monday, February 5, 2018 at 5:00 P.M. at the American Legion, located at
103 N. Commercial St., Clark, South Dakota 57225.**

Crocker Wind Farm will present a short presentation designed to give context to the comments of the public regarding the proposal. The great bulk of the time will be reserved for accepting public comments on the proposal. You can learn more about the proposal by accessing a copy of the Application online at the South Dakota Public Utilities Commission website:

<http://www.puc.sd.gov/Dockets/Electric/2017/el17-055.aspx>

Under state law, (SDCL 49-41B) Crocker Wind Farm must have a permit from the PUC prior to beginning construction. Accordingly, the Public Utilities Commission will hold further formal proceedings concerning the application. You have the right to become a formal party. The formal hearing will be unlike the public meeting listed above, and instead will be an adversary proceeding, at which the rules of evidence will be applied. Any formal party has the right to be present, and to be represented by a lawyer. Any formal party could appeal from an adverse decision of the PUC, to Circuit Court and the State Supreme Court. Those rights would be forfeited if not exercised.

MAY, ADAM, GERDES & THOMPSON LLP
503 SOUTH PIERRE STREET • P.O. BOX 160
PIERRE, SOUTH DAKOTA 57501-0160

The date and place for that formal hearing has not yet been set. At that hearing, witnesses will provide sworn testimony and be examined by lawyers for the parties. Additionally, there will be intermediate steps taken prior to that hearing for the parties to prepare, including discovery in the form of written interrogatories and depositions.

You should also be aware that the PUC has a professional staff of lawyers and analysts and engineers to review the application, engage in discovery and take evidence. The PUC staff acts in the interest of the public. The PUC staff may also contract with a number of outside expert witnesses. Those people will help staff review the application and will provide evidence to the Commissioners, on behalf of the public, including people like yourself. The cost of the staff's time and their expert witnesses is paid for by Crocker Wind Farm, as required by law.

Additionally, we have filed copies of the Application with the Clark County Auditor and the Application can be viewed there.

Thank you very much for your interest in this project.

Very truly yours,

MAY, ADAM, GERDES & THOMPSON LLP
