

Please I'm asking you to Vote
NO to the Prevailing Wind project

Towers are too high, too ^{loud} loud
And Much too Close -
Should be at least 2 mile
set back I fear them being
any closer, Spinning 200 M. hour!

I don't understand why anyone would
want to destroy our Beautiful State So DAK.

I ask again Please Stop it.

Please Post
on Docket E118-026

Sincerely

Shirley A Hubner
