Subject: Requesting Permission

Dear Sir,

I would like to request permission to be release from Southeastern Electric Cooperative Power and have Central Electric Cooperative power to provide power to my acreage at [26831 427th Ave Emery](#). As soon as power is provided I plan on updating and moving into the house as soon as possible. Then in a short period of time I plan on building a shop to work on my personal items and equipment.

Thank you,

Ron Mueller
