

EXHIBIT B

Summary of Turbine Adjustments Up To 250 Feet

Turbine Number	Turbine Shift Distance (ft)	Turbine Shift Direction	Distance to nearest residence, business, church, school, or building owned and/or operated by a governmental entity (ft) ¹	Type of Nearest Structure	Max Sound Level modeled at nearest residence ²	Shadow flicker modeled at nearest residence (hours/year) ³	Distance to nearest road (ft) ⁴	Distance to nearest non-participating parcel (ft) ⁵	Distance to existing Municipal Boundaries (mi) ⁶
F08	200	SW	3,492	Non-Participating Residence	42	17	870	958	~21
G03	91	E	2,564	Non-Participating Residence	41	14	940	1,735	~24

¹ Setback requirements –

Grant County: 1,500 feet from non-participating residence, business, church, school, building owned and/or operated by a governmental entity, unless a lesser setback distance is agreed to; 1,500 feet from participating residence, business, church, school, building owned and/or operated by a governmental entity, unless a lesser setback distance is agreed to (No less than 110% of the vertical height of the wind turbine if agreed upon by participating entity).

Roberts County: 1,275 feet from participating and non-participating residences, businesses, churches, or schools (plus 2.5 feet for each additional vertical foot more than 500 feet in height), unless a lesser setback distance is agreed to.

² Max sound level for all residences: 45 dBA within 25 feet of any non-participating residence unless the owner of the residence has signed a waiver; 50 dBA within 25 feet of any participating residence unless the owner of the residence has signed a waiver.

³ Max shadow flicker hours/year at all residences: 30 hours per year.

⁴ Setback requirements –

Grant County: 500 Feet or 110 percent of the vertical height of the wind turbine, whichever is greater.

Roberts County: 110 percent the height of the wind turbines from the centerline.

⁵ Setback requirements –

Grant County: 500 feet or 110 percent of the vertical height of the wind turbine, whichever is greater.

Roberts County: 110 percent the height of the wind turbines from the centerline.

⁶ Setback requirements –

Grant County: 5,280 feet from Municipal Boundaries existing at the time of Conditional Use Permit Application.
