Re: MidAmerican Energy Company, ER19-\_\_\_\_-000  
Certificate of Concurrence Filing

Dear Secretary Bose:

Pursuant to Section 205 of the Federal Power Act<sup>1</sup> and Section 35.13 of the regulations of the Federal Energy Regulatory Commission (“Commission”),<sup>2</sup> MidAmerican Energy Company (“MidAmerican”) respectfully submits a Certificate of Concurrence and a concurrence tariff record for MidAmerican’s eTariff database to reflect its incorporation by reference of the “Remote Local Balancing Authority Generator Interchange Agreement Between Interstate Power and Light Company and MidAmerican Energy Company” (which is designated by MidAmerican Rate Schedule No. 134) that has already been filed by Interstate Power and Light Company (“IPL”) and accepted by FERC.

In order to make room in its tariff record database to file future tariffs, MidAmerican informs the Commission that FERC Record Id. 132 is now identified as “Title Sheet” and FERC Record Id. 155 is now identified as the “Remote LBA Gen. Interchange Agmnt. (Prairie Wind). Other than switching the FERC Record Id. numbers of these two documents, nothing changed.

## **I. Description of filing**

On July 12, 2018 in Docket No. ER18-2006, IPL, on behalf of itself and MidAmerican, submitted for filing a Remote Local Balancing Authority Generator Interchange Agreement between IPL (as the Alliant West Local Balancing Authority) and MidAmerican (as the MidAmerican Local Balancing Authority and as the owner of the Ivester Wind Farm)

## **II. Section 35.13 filing requirements**

MidAmerican provides the following information pursuant to Section 35.13 of the Commission’s regulations. Most of the information required by Section 35.13 was submitted by IPL in its Transmittal Letter in Docket ER18-2006.
