Re: Docket #EL19-003  
Application to the SD PUC for a Facility Permit to Construct  
A 300 megawatt Wind Facility

Dear Ms. Van Gerpen:

In accordance with the Commission's directive to file final land status map at the June 6, 2019 *ad hoc* meeting, attached is Crowned Ridge Wind's final land status map. The attached map has been updated from that filed on May 23, 2019, as Papio Valley Land Co. and Gary Granquist have signed option agreements.

The map also identifies Robert Comes and Christopher Stricherz as non-participants; while the map shows turbine CR-Alt20 and CR-Alt-19 on their properties, those turbines will be dropped. Also, William Comes is identified as a non-participant, which will result in CR-79 being dropped from the nearby property, as necessary collection to host the turbine is not present.

With the changes of certain properties to non-participants, the Crowned Ridge Wind project continues to be in compliance with the County ordinances on sound, as well as the

sound measure that there is no non-participant residence which will experience sound above 45 dBA at their residence.

Yours very truly,

LYNN, JACKSON, SHULTZ & LEBRUN, P.C.
