## EXPERIENCE

**NEXTERA ENERGY RESOURCES**                                              Juno Beach, Florida
*Senior Project Manager of Renewable Development*                    May 2019 – Present
*Project Manager of Renewable Development*                          Dec. 2018 – May 2019

- Actively developing three utility-scale wind projects and prospecting two utility-scale solar projects in South Dakota
- Oversee all aspects of utility-scale wind, solar and storage project development in the state of South Dakota
- Manage landowner and community outreach, easement negotiations, local and state permitting and project origination efforts
- Manage relationships with potential long term customers within the Midcontinent Independent System Operator (MISO) and Southwest Power Pool (SPP) markets

*Associate Project Manager of Renewable Development*                 Mar. 2016 – Dec. 2018

- Prospected opportunities to expand NextEra's development pipeline for solar and wind energy
- Advanced NextEra's development pipeline in Minnesota, North Dakota and South Dakota
- Executed long term Power Purchase Agreements for over 600 megawatts of wind development
- Worked actively with local jurisdictions to create and adopt new wind energy siting ordinances
- Facilitated power performance testing efforts and the deployment of new meteorological instruments

*Land Services Representative*                                      Mar. 2015 – Mar. 2016

- Ensured project compliance for early stage development efforts
- Negotiated easement agreements to procure 200 megawatts of wind development in Missouri
- Worked as the community relations representative through local jurisdiction permitting processes
- Provided on the job training for over 10 new hires and assisted staffing efforts across NextEra's Midwestern fleet
