Pursuant to SDCL 49-41B-15 and 49-41B-16, the South Dakota Public Utilities Commission will hold a public input hearing at the above time and place on an application to construct the Crowned Ridge Wind Farm (Project), a wind energy facility located on approximately 53,186 acres of land in Grant and Codington Counties, South Dakota, in the townships of Waverly, Rauville, Leola, Germantown, Troy, Stockholm, Twin Brooks, and Mazeppa, South Dakota. The total installed capacity of the Project would not exceed 300 megawatts (MW) nameplate capacity. The proposed project includes up to 130 wind turbine generators, access roads to turbines and associated facilities, underground 34.5-kilovolt (kV) electrical collector lines, underground fiber-optic cable, a 34.5-kV to 345-kV collection substation, one permanent meteorological tower, and an operations and maintenance facility. The Project will utilize the Crowned Ridge 34-mile 230-kV generation tie line and a new reactive power compensation substation to transmit the energy from the Project's collector substation to the Project's point of interconnection located at the Big Stone South 230-kV Substation, which is owned by Otter Tail Power Company. Applicant has executed a power purchase agreement with Northern States Power Company (NSP) to sell NSP the full output of the Project. Applicant estimates the total cost of the project to be \$400 million.

The purpose of the public input hearing will be to hear public comments regarding the permit Application and the Project. At the hearing, Applicant will present a brief description of the Project, following which interested persons may appear and present their views, comments and questions regarding the Application. A copy of the Application is on file with the Grant County and Codington County auditors pursuant to SDCL 49-41B-15(5) and at the Commission's office in Pierre.
