Dear Gary Hanson,

I am writing to voice my support for wind energy development. Wind energy is the future. It's clean. It's local. And it supports a thriving economy, money for schools and roads, and creates local jobs. Protect the rights of property owners to make decisions about placing wind energy on their own property. Please do what you can to support wind energy. Please do what you can to support wind energy.

Sincerely,
Shirley Hifstutler
