AVON S.D. 57315 IS MY FULL ADDRESS

why does big wind get whatever they want? we know this is a scam. something that cannot support itself is never a good thing. electricity rates have went up already drastically with north west energy when they were forced to buy the wind farm north of AVON S.D. THE CONSUMER IS ALWAYS THE ONE THAT ENDS UP PAYING FOR THIS SCAM. they are invasive to all the neighbors around. please put an end to further development of this scam. the millionaire investors are the only ones getting any benefit from this. please put these comments on docket EL 19-003. thank you.
