Dear Crowned Ridge Wind II, LLC,

We appreciate you following up with us regarding the proposed location of the Crowned Ridge Wind II, LLC batch plant located off of highway 212 and adjacent to our homestead. Per our previous conversations we are fully aware of the planned batch plant location as proposed before the South Dakota Public Utility Commission and have no concerns with the location, hours of operation and level of activities. Also, we do not anticipate any impacts to our in-home neighborhood daycare service we provide.

The proposed Crowned Ridge Wind II, LLC batch plant location was formerly used to host a batch plant for improvements needed to SD Highway 212. At that time, we were living at this same location and no impacts to our home life or daycare service were experienced.

Please stay in touch regarding the finalized plans of the Crowned Ridge Wind II, LLC batch plant.

Sincerely,

Steve Hulscher
