Data Request:

Refer to Attachment 4, item 8.

- a. The last sentence states, “these customers will see a slight increase in payments”. Confirm this should read “these customers will see a slight decrease in payments”.
- b. Explain the situation that caused the Occasional Delivery Energy Service customers to decrease from six to five. Is the small power production facility belonging to this lost customer still active? Does Otter Tail anticipate the location to have an Occasional Delivery Energy Service customer in the future?
- c. Confirm this lost customer was the only customer receiving REC payments and Otter Tail doesn’t anticipate any of its current customers to receive REC payments.

Response:

- a. The last sentence should read “these customers will see a slight decrease in payments”.
- b. In the process of answering this question, we have discovered that during the CU conversion that customer rate code was inadvertently entered as “905” instead of “902” which excluded his record from the query. We are submitting a Revised Attachment 4 as Attachment 1 to DR SD-PUC-001.003.
- c. This is still the only customer that is receiving Wind REC payments.
