**RESIDENTIAL CONTROLLED AIR CONDITIONING AND  
WATER HEATING RIDER**

Section No. 5  
~~3rd~~<sup>4th</sup> Revised Sheet No. 66  
Cancelling ~~2nd~~<sup>3rd</sup> Revised Sheet No. 66

---

**AVAILABILITY**

Available to Residential Service customers with:

1. Company controlled central air conditioning, or
2. Company controlled heat pumps receiving Energy Controlled Service (Non-Demand Metered) with optional non-interruptible service during June through September.

Company controlled electric water heating is also available to residential customers with a controlled central air conditioner or heat pump, with the exception of electric water heaters served with the Energy Controlled Service (Non-Demand Metered) rate schedule.

Customers under this rider will be subject to the following credit.

**RIDER**

Residential Central Air Conditioning

A \$10 monthly bill credit will be applied for the billing months of June through September.

Residential Electric Water Heating

A \$2 monthly bill credit will be applied for all billing months.

**TERMS AND CONDITIONS**

1. The duration and frequency of interruptions will be determined by the Company. Customer's air conditioning equipment will normally be cycled on a schedule designed to achieve up to a 60% reduction in the home's air conditioning requirements during a load management period. The Company reserves the right to cycle on a schedule designed to achieve 80% reduction for additional load relief. -Air conditioning will be cycled on a schedule of 15 minutes on and 15 minutes off in any 30 minute portion of a load management period. Air conditioning interruptions will normally occur on high demand days during summer months. Water heating interruptions will normally occur on high demand days during summer and winter months. Interruption will normally be based on meeting peak demands and system economic dispatch requirements of Company. However, interruption may also occur at times when, in the Company's opinion, the reliability of the system may be at risk. Air conditioning and water heating interruptions will not normally occur during the observation day of the following holidays: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. The interruptions as described above, will be made so as to benefit native load and may occur up to a maximum of 300 hours per calendar year.
2. Company shall not be liable for any loss or damage caused by or resulting from any interruption of service.

**COMMERCIAL AND INDUSTRIAL CONTROLLED AIR  
CONDITIONING RIDER**

Section No. 5

~~Original~~ 1st Revised Sheet No. 67.1

**AVAILABILITY**

Available to Small General Service, Small General Time of Day Service, General Service, or General Time of Day Service customers with:

1. Company controlled central air conditioning, or
2. Company controlled heat pumps receiving Energy Controlled Service (Non-Demand Metered) with optional non-interruptible service during June through September.

Availability is restricted to customers with single and/or dual air conditioning units.

**RIDER**

A \$5.00 per ton per month credit shall be applied to customer's bill during each of the four summer billing months (June through September).

**TERMS AND CONDITIONS OF SERVICE**

1. The duration and frequency of interruptions will be determined by the Company. Customer's air conditioning equipment will normally be cycled on a schedule designed to achieve up to a 60% reduction in the building's air conditioning requirements during a load management period. The Company reserves the right to cycle on a schedule designed to achieve 80% reduction for additional load relief. Single stage air conditioners will be cycled on a schedule of 15 minutes on and 15 minutes off in any 30 minute portion of a load management period. Dual stage air conditioners will be allowed to have the first stage run without interruption while the second stage will be shut off for the entire load management period. Air conditioning interruptions will normally occur on high demand days during summer months. Interruption will normally be based on meeting peak demands and system economic dispatch requirements of Company. However, interruption may also occur at times when, in the Company's opinion, the reliability of the system may be at risk. Air conditioning interruptions will not normally occur during the observation day of the following holidays: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. The interruptions as described above, will be made so as to benefit native load and may occur up to a maximum of 300 hours per calendar year.
2. Company shall not be liable for any loss or damage caused by or resulting from any interruption of service.
3. To be eligible for this service, customer must agree to allow Company load control for a minimum term of one year.
4. Rider will not be available to customers that have an air conditioning system which significantly exceeds summer cooling requirements, as determined by Company.
