MidAmerican Energy Company
First Data Request

Responder Name: John O’Roake
Job Title: Energy Efficiency Product Manager
Phone: 641-257-5555

1-1 South Dakota Data Request

On Page 1 of Exhibit A, what was the “supplemental payment” for?

Response:

When processing an application for payment in MidAmerican’s tracking system, if measure information is incorrectly received/entered, supplemental payments are used as a true-up measure. Once MidAmerican receives corrected information from the trade ally or the customer after the original rebate check has been issued, the supplemental payment is issued for the difference between the original payment to the customer and the amount of the appropriate prescriptive incentive rebate.

Only one customer received a supplemental payment in 2016 through the Residential Equipment program, resulting from a data entry error on a ground source heat pump application.
