

South Dakota Public Utilities Commission
Docket GE18-002
MidAmerican Energy Company
First Data Request

Responder Name: Julie Swisher
Job Title: Energy Efficiency Product Manager
Phone: 563-333-8829

1-1 South Dakota Data Request

Please refer to Exhibit C, page 1 of 6:

- a) What circumstances created a TRC Test Score of 1.05 for the Residential Load Management Program? Did air conditioners not need to be cycled as much as forecasted in 2017?
- b) What circumstances created a TRC Test Score of 0.30 for Small Commercial Energy Audit?

Response:

- a) The Residential Load Management program had a TRC test score of 1.05 due to overall program costs being reduced because fewer load control devices were replaced or installed in the field than budgeted.
- b) The Small Commercial Energy Audit program had a TRC test score of 0.30 because MidAmerican stopped performing assessments in September 2017 due to funding for the nonresidential equipment program being almost depleted. MidAmerican did not want nonresidential customers to have assessments completed at their facilities, then subsequently be unable to receive rebates for equipment upgrades made in 2017 due to the lack of funding.
