To Commissioners:

500 E. Capital Ave.
Pierre, SD 57501-5070

Dear Sirs:

This is in regard to the Keystone Pipeline Project and the decision to condemn property. It is my understanding that this Company must negotiate in good faith prior to condemnation.

My property ¼ SE 4 Sec 13 twp 95 N Range 56 W tract # MCSDYA 1428 Dir. Is directly in line with property on either side owned by my nephews who have received offers. I have received NO communication from this Company since the survey. Now they are informing people that they are condemning property. How is this possible when no permit for eminent domain has been issued.

Your brochure says that you are to help resolve debates. Please help me with this problem. Please tell me if this company has obtained the right to condemn without public hearings.
