Data Request:

Using plans filed with any local, state or federal agencies, indicate on a map drawn to scale of the current planned water uses by communities, agriculture, recreation, fish and wildlife which may be affected by the location of the proposed facility and a summary of these effects per 20:10:22:15 (2).

Response:

Keystone's water use will be limited to the temporary use of a relatively minor quantity of water during hydrostatic testing. Therefore, Keystone does not anticipate any impacts to water uses by communities, agriculture, recreation, or fish and wildlife.
