Comments: I would like to add our request that the PUC hold its hearings starting December 3, 2007, in Huron, SD instead of Pierre to make it easier for farmers and concerned citizens along the pipeline route to attend. We feed cattle and it would be a hardship for my husband and son to attend meetings in Pierre. It is a 3 1/2 hour trip from here to Pierre on good roads in good weather. I have no idea how long it would take if we had inclement weather or icy roads. Huron would be a better place to hold the meetings. It is closer even for the PUC commissioners. It would seem that it would be better for all concerned since the mileage would be less for everyone that is affected by this pipeline. At \$3+ per gallon, that is another extra expense that these landowners should not have to incur. Also we would suggest that the PUC coordinate a date and time for each person who will be attending to testify. If people know when they are scheduled to testify, it would be better than having to show up every day. I would be willing to assist with this or WEB's attorney Reed Rasmussen, I am sure, would also be willing to help. Thank you
