Dear PUC:

SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

Please vote against the pipeline. I am concerned about spills going into the ground water. When you see what a spill from a tanker does to the ocean & wildlife in California & Alaska, think what a break could mean for our water supply for everyone who lives on the east side of S.D. There is already too much pollution in the air (best in the nation) but still polluted, in our food from pesticides & herbicides, manure etc.

Thank you.

Donna Barnes
