

Additional Testimony  
Burden of Proof #2  
Social and Economic

We gave the attached map to our at the time land agent Pam Bruce on 06-26-07.  
The map shows the future expansion plans we have been working on.  
Pam told us that TransCanada had to reroute because they could not limit our future expansion. TransCanada never contacted us about the plans.

When our second land agent visited us on 7-30-07, the map we had given Pam was not in the file. Clark told us that he was our new agent. Pam was moved to NE.

We are wondering why this foreign company was not willing to work with us about our plans and what happened to the map we gave to Pam Bruce.

Respectfully submitted

Mike and Sue Sibson
