Dears Sirs:

I come from a farm family and love the land, so I really wish that we could just say "NO PIPE LINE". But, if we can not plan on that, we need to have proof that it will be cared for and our water will be clean.

We are U.S. residents and have not control over Canada therefore need the assurance. I feel a fund to fix a leak should be set up before the start. We need control and they need to pay in to South Dakota as long as they are here, because someday we will need to remove or repair and old pipe or leak. Please take care of us.
