Dear Sirs:

We have heard so much these last months about the proposed pipe line coming through Marshall County from Canada. We hope that you , the commissioners, take all things in to consideration before you get us into something we would not want in future.

We worry about the possibility of a leak of oil into our aquifer of clean water as it would effect most of us in Marshall County. Questions like, who would be responsible for clean up? Who has the governing power over the line in South Dakota.. Who will be responsible for the disassembling of the pipes when a if the project fails or is no longer in use? We are sure there are other concerns that only you know are lurking out there in this project and we try to trust you in your judgment to do what is right for our State. Just, LISTEN TO YOUR PEOPLE.

Thank you.

Delmar Roehr
