Pursuant to SDCL 49-41B-15 and 49-41B-16, the South Dakota Public Utilities Commission (Commission) will hold public input hearings at the above times and places on an application filed by TransCanada Keystone Pipeline, LP (Keystone) seeking approval of its proposed crude oil pipeline. On March 12, 2009, Keystone filed a siting permit application for the South Dakota portion of the proposed Keystone XL Project (Project). The Project will transport crude oil starting in Hardisty, Alberta, Canada and ending in Port Arthur and East Houston areas of Texas. The proposed 36 inch diameter pipeline will have a nominal capacity of 900,000 barrels of oil per day. The proposed route will enter South Dakota at the Montana/South Dakota border in Harding County. It will extend in a southeasterly direction through portions of Harding, Butte, Perkins, Meade, Pennington, Haakon, Jones, Lyman, and Tripp counties. It will exit the state at the South Dakota/Nebraska border in Tripp County. The length of pipeline through South Dakota is approximately 313 miles. The Project also includes seven pump stations in South Dakota located in Harding (2), Meade, Haakon, Jones, and Tripp (2) counties along with 16 mainline valves. Mainline valves are proposed at each pump station and along the right-of-way with spacing intervals based upon the location of the pump stations, water bodies greater than 100 feet in width, high consequence areas and other considerations.

At the hearing, interested persons may appear and present their questions, views and comments regarding the application. Pursuant to SDCL 49-41B-15(5), the application is on file in the following County Auditor Offices: Harding County, Butte County, Perkins County, Meade County, Pennington County, Haakon County, Jones County, Lyman County and Tripp County. Pursuant to SDCL 49-41B-17, any person residing in the area of the project, each municipality, county, and governmental agency in the project area, any non-profit organization formed in whole or in part to promote conservation or natural beauty, to protect the environment, personal health or other biological values, to preserve historical sites, to promote consumer interests, to represent commercial and industrial groups, or to promote the orderly development of the project area, or any interested person, may be granted formal party status in this proceeding by making written application to the Commission as provided in ARSD 20:10:22:40 on or before May 11, 2009. Application forms for party status will be available at all public input hearings listed above.

For approval, TransCanada must show that the proposed energy conversion facility will comply with all applicable laws and rules, will not pose a threat of serious injury to the environment nor to the social and economic condition of inhabitants or expected inhabitants in the siting area, will not substantially impair the health, safety or welfare of the inhabitants, and will not unduly interfere with the orderly development of the region with due consideration having been given to the views of governing bodies of affected local units of government. Based upon these factors, the Commission will decide whether the permit should be granted, denied or granted upon such terms, conditions or modifications of the construction, operation or maintenance as the Commission finds are appropriate.
