FRAC-OUT DETAILS

On 9/10/10 several minor frac-outs occurred while completing the bore of 485th Avenue (County Road 29). The drilling mud surfaced within the Right-Of-Way (ROW) in the vicinity of Stations 435+33, 435+53 and 435+65. Drilling activities were halted to relieve the pressure in the hole. A vacuum truck was used to remove the drilling mud. In addition, water was sprayed on the mud to help further dilute the mud. All of the drilling mud was contained within the ROW.
