Re: Contract With Deviations - Natural Gas Service Agreement

Dear Ms. Van Gerpen:

With this letter, NorthWestern Corporation ("NorthWestern" or the "Company"), doing business as NorthWestern Energy, is filing with the Commission a proposed new natural gas Contract with Deviations (the "Contract") with Millennium Ethanol, LLC (the "Customer") for which we would request Commission approval.

Pursuant to ARSD 20:10:13:36 and ARSD 20:10:13:39, the Company states:

(1) The documents submitted with this filing include:

- A copy of the executed proposed Contract, for which confidential treatment, has been requested, pursuant to ARSD 20:10:01:41 (see Exhibit A to this letter);
- A copy of the Workpapers that include the listing of the costs for the Company to construct gas lines to the Customer's facilities;
Maps that show the location of the lines to be constructed; and
The proposed revised tariff schedule, Section 4, 19th Revised Sheet No. 1
Summary List of Contracts with Deviations which includes a reference to the Contract and the information required by ARSD 20:10:13:09.

- (2) The proposed effective date for the Contract is December 1, 2007.
- (3) The names and addresses of those to whom copies of this filing have been mailed:

Steve Domm
Millennium Ethanol, LLC
300 North Broadway Avenue
PO Box 357
Marion, SD 57043

- (4) Brief description of the proposed deviation from the Company's standard rates:

The Customer is a large volume user (over 10,000 MMBtu per day) and would normally be served under the transportation tariff rate 87. However, it is required that approximately 32 miles of pipeline be built to serve this customer. Under the proposed Contract, the Customer's contribution for the Company's investment in line extensions necessary to be constructed to serve the Customer is the "deviation" from such Tariff.

- (5) Reasons for the proposed deviation:

The reason for the proposed deviation is to allow the Company to provide natural gas service to the Customer's proposed new facilities in the community of Marion, assisting the economic development of the community, while providing compensation for the Company and its other customers for the additional expenditures necessary to construct the facilities necessary to provide service. The additional revenue that the Company receives from the Customer will be credited to the cost of service and help to offset these additional costs. When the term of the contract is completed (10 years from plant start-up), the Customer will receive service under Rate 87.

- (6) Number of customers whose cost of service will be affected and annual changes in cost of service to such customers.

This proposed Contract will apply only to the Customer, and the affect on its cost of service is provided in the Contract.

Sincerely,

Jeff Decker
Rates Analyst
