B. U. C.

SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

The reason I am writing to you is about the rate increase.

I am on a fixed income and can not afford the rate increase.

The rate increase if it goes through will mean that I have to cut back on food, medication, clothing and doctors visits when I get sick.

I need my medicine very much and I can not afford to starve myself and wear worn out clothing and shoes.

There are other people on fixed income or making the minimum wage and can not afford the increase.

If the rate increase

goes through than I need
more money to live on and
so do other poor people...

We are barely making
a living now on what we
are getting.

Please think of us
poor people for a change
and do not go through
with the rate increase.

Sincerely,
Linda Bronke
