1-9 What effects does MDU anticipate the 25 rebate per builder cap will have on the residential new construction high efficiency furnace program? How many rebates did each individual builder redeem in 2013?

Response:

Montana-Dakota does not anticipate that the 25 rebates per builder cap will have a large impact on the residential new construction high efficiency furnace program. In 2013 Montana-Dakota had a total of 19 home builders participate in the 2013 new construction high efficiency furnace program. All but one home builder received fewer than 25 high efficiency furnace rebates. Please see the table below for a list of the number of rebates by builder.

<u>Builder Name</u>	<u># Furnace Rebates</u>
1 A-1 Construction	1
2 Great Plains Builders	1
3 Boom Construction	2
4 High Plains Builders	2
5 K & S Custom Homes	2
6 Parker Construction	2
7 Rave Brothers Construction	2
8 Jones Construction	3
9 K & D Construction	3
10 Mehlhaff Construction Inc	3
11 Stillwater Homes	5
12 Good Construction	6
13 Guthrie Inc	6
14 Select Construction	6
15 Swenson Construction	7
16 D & T Ventures	16
17 Nesland Construction	19
