SECTION 3 – GAS RATE SCHEDULES
RATE PRG – PRODUCERS OF RENEWABLE GAS TRANSPORTATION SERVICE
(continued)

CHARACTER OF SERVICE (cont.)

The Producer shall deliver, and the South Dakota gas transportation customer(s) shall receive and consume such Renewable Gas within the legal boundaries of the State of South Dakota. The Producer and consuming gas transportation customer(s) shall be served by the same pipeline.

During a Critical Day or Operational Flow Order, the Company will have the right to restrict the availability of deliveries and receipts made under this rate schedule. In the event a restriction occurs, a Company representative will notify the Producer at such time.

The Producer shall be responsible for ensuring the Renewable Gas consistently meets all Company gas standards at the Delivery Point on the Company’s distribution system.

Service under this rate schedule is available on a best efforts basis, and the quantity of Renewable Gas the Company will accept from the Producer each day may be limited, and is dependent on (a) the Company’s ability to physically accept deliveries at the Delivery Point each day; (b) the ability of the transportation customer(s) purchasing the gas to consume the total quantities produced; and (c) the Renewable Gas meeting all applicable gas quality standards.

DEFINITIONS

Producer – a company or its agent that makes or processes Renewable Gas.

Renewable Gas – gas produced from agricultural or municipal waste that, with or without further processing, has characteristics (a) consistent with the provisions of all Company gas standards, and (b) that in the sole view of the Company does not otherwise pose a hazard to inclusion in the Company’s distribution lines when co-mingled with natural gas.
