Customers receiving natural gas service under MidAmerican Energy's Rate NF are also subject to charges related to Clause PGA - Cost of Purchased Gas Adjustment and Clause EECR - Energy Efficiency Cost Recovery.

TRANSITION CHARGE

Each customer will be charged a transition fee of \$200 prior to the start of service by MidAmerican Energy.

INSPECTIONS

Before MidAmerican Energy can begin natural gas service, each customer will have a safety inspection by a MidAmerican Energy contractor. We may also inspect your equipment when:

- › Turning service on or off.
- › Checking for gas leaks or venting problems.
- › Investigating high or low gas pressure complaints.
- › Reading meters.
- › Relocating meters.
- › Performing any other similar utility service.

MidAmerican Energy is dedicated to providing you with safe, reliable natural gas service and are here to answer your questions during this transition. Join us at one of our informational meetings in September, or call us at 1-800-432-4591 Monday through Friday, 8 a.m. to 4 p.m.
