Effective: November 1, 2017

This Gas Cover Letter and accompanying revised tariff sheets are submitted herewith to clean up portions of MidAmerican's gas tariff to ensure that cross-references are correct with the new farm tap provisions in the tariff that were approved by the South Dakota Public Utilities Commission (Commission) on August 23, 2017 in Docket No. NG17-011 with an effective date of August 15, 2017. This tariff filing also includes a revision to the safety protocols found on Sheet No. 56.1. A summary of the changes is provided below.

Section No. I, Tariff Sheet Nos. 1, 2, 6 and 7 are being revised to update the table of contents to include Rate NF and additional requirements for customer-owned farm tap facilities and service lines.

Section No. II, Tariff Sheet Nos. 1 and 3 are being revised to add the cities and counties in which these new farm tap customers are located to the territory served and territory map.

Section No. II, Tariff Sheet No. 3 is being revised to add Rate NFS to the list of gas sales service and Rate NFT to the list gas transportation service.

Section No. III, Tariff Sheet Nos. 50, 70 and 72 are being revised to add Rate NFS to the list of applicable rates.

Section No. III, Tariff Sheet Nos. 51 – 67, 77 – 87, and 89 are being revised to add Rate NFT to the list of applicable rates.

Section No. III, Tariff Sheet No. 88 is being revised to add Rate NFT to the list of applicable rates and to add a monthly maximum charge per delivery point for Rate NFT.

Section No. V, Sheet Nos. 16 and 17 are being revised to add Rate NF to the list of rates.

Section No. V, Sheet No. 56.1 is being revised to change the requirement of the pressure test from a minimum of 100 psi to a minimum of 150% of the system's operating pressure. As MidAmerican began performing its first safety checks, it was identified that the farm taps typically run at much lower pressures, and therefore the 100 psi figure is likely significantly too high for these systems. The updated language is more consistent with testing procedures that would be applied to lower pressure systems.

In order to avoid a timing issue with one of the tariff sheets that is also included in MidAmerican's monthly PGA filing, MidAmerican is requesting that the Commission approve these tariff changes on less than 30 days' notice with an effective date of November 1, 2017.

Please contact me if you have any questions.

Sincerely,

/s/ Diane Votino
