Re: Filing of Agreements between U S WEST Communications, Inc. and Black Hills
FiberCom, L.L.C.
Our File No. 2104.078

Dear Ms. Elofson:

Pursuant to ARSD 20:10:32:21 enclosed for filing are an original and ten (10) copies of the following four agreements between U S WEST Communications, Inc. ("U S WEST") and Black Hills FiberCom, L.L.C. ("Black Hills") for approval by the Commission:

1. Line Information Data Base Storage Agreement;
2. Common Channel Signaling Network Interconnection Agreement;
3. Internetwork Calling Name Delivery Service Agreement; and
4. Custom Local Area Signaling Services Network Interconnection Agreement;

The Agreements are negotiated agreements which set forth the terms, conditions and prices under which U S WEST will offer and provide to any requesting CLEC network interconnection, access to unbundled network elements, ancillary services and telecommunications services available for resale within the geographical areas in which U S WEST is providing local exchange service at that time and for which U S WEST is the incumbent local exchange carrier within the State of South Dakota for purposes of providing local telecommunications services.

The Agreements do not discriminate against other telecommunications carriers, and the Agreements are consistent with the FCC's guidelines for negotiation and performance. Additionally, other telecommunications carriers have the option to adopt any negotiated or arbitrated agreement approved by the Commission.

The Agreements are consistent with the public interest as identified in the state statutes of South Dakota, the Commission's rules, the federal Telecommunications Act of 1996 and the rules of the Federal Communications Commission and all disputes arising in South Dakota will be resolved by South Dakota law. Expeditious approval of these Agreements will enable Black Hills to enter the local exchange market and provide customers with increased choices among local exchange services.

Black Hills has authorized U S WEST to submit these Agreements on Black Hills' behalf.

Sincerely yours,

BOYCE, GREENFIELD, PASHBY & WELK, L.L.P.

Enclosures

Call Rejection - Lets a customer block incoming calls from certain telephone numbers. The blocked calls route to a special denial announcement.

Call Trace - A service that gives customers another option in dealing with annoyance calls.

Caller Identification - Number Only - Lets a customer know the number of the calling party before the customer answers the phone. This feature requires Customer Premise Equipment (CPE) with a display screen.

CLASS - A set of capabilities made possible by the Common Channel Signaling Network (CCSN) and supporting software. The CLASS services provide management and security features to residence and small business customers enabling them to interact with the network on both incoming and outgoing calls.

Common Channel Signaling Network (CCSN) - A network signaling technology in which all signaling information between two or more nodes is transmitted over high-speed data links, rather than over the voice circuit. In the context of 800 Data Base Service, CCS refers to the network signaling technology which utilizes the Signaling System 7 (SS7) protocol as opposed to any other common signaling protocol used by other CCS applications.

Continuous Redial - Automatically prompts the central office to redial a busy number. A distinctive ring (short, short, long) lets the customer know when the call can be completed.

Global Title Translation (GTT) - In SS7 the process of translating a network layer address (e.g. an 800 number) to a point code, which is the SS7 level 3 address - used by the Message Transfer Part (MTP) for routing. For example, for 800 services, Global Title Translation is the translation from the 800 number to the point code of the database containing the translation for the specified number.

Last Call Return - Allows customer to dial the number of the latest incoming call, whether the call is answered or not.

Message Transfer Part (MTP) - SS7 protocol responsible for the reliable transport of signaling messages across the SS7 network. MTP includes level 1 of 56 or 64 kbs DS0 channels, a High Level Data Link Control (HDLC) based level 2, and level 3 routing based on the use of point codes which are assigned to each signaling point. MTP also includes procedures for change-over/change-back to enhance reliability.

Priority Call - Allows a customer to establish a list of special telephone numbers. A distinctive ring indicates an incoming call from this priority list.

Selective Call Acceptance - Enables a subscriber to selectively accept calls arriving from a limited set of previously identified directory numbers.

Selective Call Forwarding - Allows the customer to establish a special call forwarding list. When activated, only incoming calls from numbers on this list will forward.

SECTION 5. NETWORK SPECIFICATIONS

The Common Channel Signaling Access Capability ("CCSAC") transmission specifications, diversity requirements and testing parameters are set forth in Technical References TR-TSV-

000905, TR-TSV-000954 and USWC Technical Reference PUB 77342, as amended from time to time.

SECTION 6. CCSAC ACCEPTANCE TESTING REQUIREMENTS

USWC will cooperatively test with FiberCom, at the time of installation, network compatibility and other operational tests as described in USWC Technical Reference PUB 77342. Successful completion and acceptance of all testing requirements must occur in order to receive CCSAC service.

SECTION 7. FORCE MAJEURE

With the exception of payment of charges due under this Agreement, a Party shall be excused from performance if its performance is prevented by acts or events beyond the Party's reasonable control, including but not limited to, severe weather and storms; earthquakes or other natural occurrences; strikes or other labor unrest; power failures; computer failures; nuclear or other civil or military emergencies; or acts of legislative, judicial, executive, or administrative authorities.

SECTION 8. LIMITATION OF LIABILITY

Under no circumstances shall either Party be liable to the other for any indirect, incidental, special, or consequential damages, including but not limited to, loss of business, loss of use, or loss of profits which arise in any way, in whole or in part, as a result of any action, error, mistake, or omission, whether or not negligence on the part of either Party occurs. One Party's liability to the other Party for direct, actual damages shall not exceed the amount required to correct the error, mistake, or omission under this Agreement.

SECTION 9. INDEMNIFICATION

Each Party to this Agreement hereby indemnifies and holds harmless the other Party with respect to any third-party claims, lawsuits, damages or court actions arising from performance under this Agreement to the extent that the indemnifying Party is liable or responsible for said third-party claims, losses, damages, or court actions. Whenever any claim shall arise for indemnification hereunder, the Party entitled to indemnification shall promptly notify the other Party of the claim and, when known, the facts constituting the basis for such claim.

In the event that one Party to this Agreement disputes the other Party's right to indemnification hereunder, the Party disputing indemnification shall promptly notify the other Party of the factual basis for disputing indemnification. Indemnification shall include, but is not limited to, costs and attorney fees.

SECTION 10. CHOICE OF LAW

This Agreement shall be governed by and construed in accordance with the laws of the state in which services are provided.

SECTION 11. DISPUTE RESOLUTION

All claims arising out of this Agreement shall be resolved by arbitration in accordance with the then current rules of the American Arbitration Association. The arbitration shall be conducted by a single arbitrator engaged in the practice of law. The arbitrator's decision and award shall be final and binding and may be entered in any court with jurisdiction.

SECTION 12. SUCCESSORS, ASSIGNMENT

This Agreement binds the Parties, their successors, and their assigns. Either Party may assign its rights and delegate its duties under this Agreement with the express, written permission of the other Party, which permission shall not unreasonably be withheld; provided, however, that USWC

may assign its rights and delegate its duties under this Agreement to its parent, its subsidiaries, or its affiliates without prior, written permission.

SECTION 13. LAWFULNESS OF AGREEMENT

This Agreement and the Parties' actions under this Agreement shall comply with all applicable federal, state, and local laws, rules, regulations, court orders, and governmental agency orders. This Agreement shall only be effective when mandatory regulatory filing requirements are met, if applicable. If a court or a governmental agency with proper jurisdiction determines that this Agreement, or a provision of this Agreement, is unlawful, this Agreement, or that provision of this Agreement to the extent it is unlawful, shall terminate. If a provision of this Agreement is so terminated but the Parties legally, commercially, and practicably can continue this Agreement without the terminated provision, the remainder of this Agreement shall continue in effect.

SECTION 14. AMENDMENTS TO AGREEMENT

The Parties may by mutual agreement and execution of a written supplement to this Agreement amend, modify, or add to the provisions of this Agreement.

SECTION 15. DEFAULT

Either Party may terminate this Agreement if the other Party defaults by failing to perform any substantial obligation on its part. In the event of default, a Party shall have ten (10) days after written notice to correct such default. This Agreement may not be terminated as a result of default unless and until written notice detailing such default is given to the defaulting Party.

SECTION 16. NOTICES

All notices required by or relating to this Agreement shall be in writing and shall be sent to the Parties to this Agreement at their addresses set forth below, unless the same is changed from time to time, in which event each Party shall notify the other in writing of such change. All such notices shall be deemed duly given if mailed, postage prepaid, and directed to the addresses then prevailing. If any questions arise about dates of notices, postmark dates control.

CONSUMER COMPLAINTS

**CN03-001 In the Matter of the Complaint filed by Veda J. Boxwell, Sioux Falls, South Dakota,
against MidAmerican Energy Company Regarding Billing.**

Complainant states that after selling her property at 1000 N. Minnesota, she contacted MidAmerican and asked that it remove her name from the billing at this address and to inquire about what her final bill would be. In January 2003, Complainant requested that MidAmerican put her name on the billing address at 3316 N. 9th Ave. MidAmerican told her that it could not put her name on the account because she had service in her name at 1000 N. Minnesota and had an outstanding bill of \$240.00. Complainant requests that service be removed from her name at 1000 N. Minnesota, effective January 15, 2002, that the outstanding bill at this address be removed from her name and that she be allowed service in her name at 3316 N. 9th Ave., effective immediately.

The above 17 Agreements were filed with the Commission on 06/13/02, as a confidential exhibit to the Affidavit of Todd Lundy in Docket TC01-165. On 11/22/02, in the Order Regarding the Public Interest, the Commission ruled that the issue of whether these Agreements were a mandatory filing should be considered separate from the TC01-165 docket. Pursuant to that Order, these dockets were opened for the purpose of receiving a Commission ruling on whether these Agreements should have been filed pursuant to the mandatory filing requirements of section 252(e)(1) of the 1996 Telecommunications Act. Qwest has requested confidential treatment of the contents of these Agreements pursuant to ARSD chapter 20:10:01. Any party wishing to comment on these Agreements may do so by filing written comments with the Commission and the parties to these Agreements no later than February 5, 2003. Parties to these Agreements may file written responses to the comments no later than twenty days after the service of the initial comments.

SIGNALING SERVICES (CLASS) NETWORK)	
INTERCONNECTION AGREEMENT BETWEEN)	TC03-027
U S WEST COMMUNICATIONS, INC. AND)	
BLACK HILLS FIBERCOM, L.L.C.)	

On January 13, 2003, the Commission received for approval a filing of a Custom Local Area Signaling Services (CLASS) Network Interconnection Agreement between U S WEST Communications, Inc. n/k/a Qwest Corporation (U S WEST) and Black Hills FiberCom, L.L.C. (FiberCom).

On January 16, 2003, the Commission electronically transmitted notice of this filing to interested individuals and entities. The notice stated that any person wishing to comment on the parties' request for approval had until February 3, 2003, to do so. No comments were filed.

At its duly noticed March 18, 2003, meeting, the Commission considered whether to approve the agreement between U S WEST and FiberCom. Commission Staff recommended its approval.

The Commission has jurisdiction over this matter pursuant to SDCL Chapter 49-31, and the Federal Telecommunications Act of 1996. In accordance with 47 U.S.C. § 252(e)(2), the Commission found that the agreement does not discriminate against a telecommunications carrier that is not a party to the agreement and the agreement is consistent with the public interest, convenience, and necessity. The Commission unanimously voted to approve the agreement. It is therefore

ORDERED, that the Commission approves the agreement.

Dated at Pierre, South Dakota, this 25th day of March, 2003.

SUPPLEMENTAL COMMENTS OF QWEST CORPORATION

Qwest Corporation (“Qwest”) submits the following supplemental comments in these dockets pursuant to the Commission’s oral request during a March 18, 2003 hearing on the dockets that Qwest explain why the agreements reflected in TC03-024 through TC03-031 were not filed earlier.

INTRODUCTION

On January 13, 2003, Qwest petitioned the Commission to approve pursuant to Section 252(e) the agreements reflected in TC03-024 through TC03-031 (the “Agreements”) under the new standards adopted by the FCC. Under each of these Agreements, CLECs subscribe to various standard product offerings which are and have been generally available on equal terms to all CLECs through standard, uniform provisions contained in Qwest’s SGATs or other filed and approved interconnection agreements. These standard offerings include Custom Local Area Calling Services (CLASS), Internetwork Calling Name Delivery Service (ICNAM), Transient Interim Signaling Capability Service, Line Item Data Base Service, Common Channel Signaling, and Transit Record Exchange. As shown by a review of each of the Agreements, these documents are standard forms that the parties execute when the CLEC requests these types of offerings.

Prior to and even after the FCC’s October 4, 2002 ruling on Qwest’s request for clarification of the filing standards,¹ Qwest did not consider such form contracts as within the Section 252 filing requirement. For example, these types of order form contracts were provided to the Minnesota Department of Commerce as part of the unfiled agreements docket in that state, and the Minnesota Department of Commerce never identified these form contracts as agreements that are within the Section 252 filing requirement.

However, a subsequent comment in the FCC's December 23, 2002 ruling on Qwest's application for section 271 relief in nine other states suggested that even these form contracts potentially could be subject to Section 252. Qwest promptly reviewed the Agreements (and several others) in light of the December 23, 2002 comment, the standards announced by the FCC in October 2002, and particularly Qwest's announced policy to resolve all Section 252 issues in favor of filing. Thus, on January 13, 2002, Qwest filed the Agreements.

DISCUSSION

As Qwest noted in its original comments in these dockets, as of May 2002 Qwest adopted new policies under which all future contracts creating ongoing obligations with respect to Sections 251(b) or (c) are filed with state commissions for approval under Section 252. Qwest also created a senior-level committee to enforce compliance with this policy. These policies apply across all states in the Qwest region. Subsequently, on October 4, 2002, the FCC issued a Declaratory Ruling regarding the scope of the Section 252 filing requirement that was consistent with Qwest's self-imposed policy standard.

As part of its implementation of these policies, in September 2002 Qwest filed in South Dakota previously unfiled agreements insofar as those contracts contained provisions creating on-going obligations that relate to Section 251(b) or (c) which have not been terminated or superseded by agreement, commission order, or otherwise. These filings were equivalent to those made the previous month in the several other states. Four contracts were filed in South Dakota, and the Commission approved those contracts on December 19, 2002.

¹ *Petition for Declaratory Ruling on the Scope of the Duty to File and Obtain Prior Approval of Negotiated Contractual Arrangements Under Section 252(a)(1)*, 17 FCC Rcd 19337 (Oct. 4, 2002).

Through these September filings, Qwest believed that it had complied with the requirements of Section 252 as expressed in Mr. Davis's May, 2002 letter and Qwest's quite broad filing standard that it has applied since. Then, on October 4, 2002, the FCC issued its ruling on Qwest's Petition for Declaratory Ruling, and supported, in Qwest's view, its understanding that these types of form contracts were not within the filing requirement. That is, the FCC stated in paragraph 13 the following:

13. Qwest has argued, in another proceeding, that order and contract forms used by competitive LECs to request service do not need to be filed for state commission approval because such forms only memorialize the order of a specific service, the terms and conditions of which are set forth in a filed interconnection agreement. We agree with Qwest that forms completed by carriers to obtain service pursuant to terms and conditions set forth in an interconnection agreement do not constitute either an amendment to that interconnection agreement or a new interconnection agreement that must be filed under Section 252(a)(1).

Thus, Qwest had not filed the Agreements at issue here – certain boilerplate contracts used by CLECs in the ordinary course to order ancillary interconnection services – understanding them to fall into the category of contract order forms that did not require prior state commission approval under that Ruling. In the FCC's order on Qwest's application for section 271 relief in Colorado, Idaho, Iowa, Montana, Nebraska, North Dakota, Utah, Washington and Wyoming,² however, the Commission made a comment that precipitated the filing of the Agreements. The FCC found that at least one such contract “does not appear on its face to fall within the scope of the filing requirement exceptions set forth in the Commission's declaratory ruling. . . .”³ Even so, the Commission found that because the terms of the agreement are available through SGATs in the relevant states, the terms of the agreement are

available to other CLECs “and thus no ongoing discrimination exists that would warrant denial of this section 271 application.”⁴

To eliminate any issue in South Dakota or before the FCC in connection with Qwest’s application for section 271 relief for South Dakota, Qwest promptly filed the Agreements for approval under Section 252 in South Dakota, and similar form contracts in Oregon and New Mexico as well. The Agreements filed in South Dakota and represented in Dockets TC03-024 through TC03-031 are all form contracts similar to the agreement discussed in the *Qwest 271 Order*. Qwest must make clear that it continues to believe that, when examined in context as opposed to simply on their face, it is clear that these Agreements are order form contracts exempt from Section 252. However, we have no objection to filing them; they simply reflect the same terms that are and always have been available to all CLECs equally.

In sum, no South Dakota CLEC has been injured in this matter because the contract terms are standard provisions that have been available to all CLECs. Especially given that, no CLEC intervened in these dockets or complained about the timing of the Agreements’ filing, and in light of the significant, proactive steps Qwest has taken to ensure the prompt filing of all agreements that arguably fall under the FCC’s filing standards pursuant to sections 251 and 252 of the 1996 Act, Qwest respectfully requests that Dockets TC03-024 through –031 be closed.

⁴ *Id.*

Respectfully submitted this 31st day of March, 2003.
