BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA

SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

IN THE MATTER OF THE ESTABLISHMENT) TC04-119
OF SWITCHED ACCESS RATES FOR THE) AMENDED PETITION
LOCAL EXCHANGE CARRIERS ASSOCIATION) TO INTERVENE

Pursuant to ARSD 20:10:01:15.02 MCI metro Access Transmission Services, LLC, ("MCI") by its undersigned counsel petitions the Commission as follows:

1. MCI is a certificated communications company under the jurisdiction of the Commission.

2. The Local Exchange Carriers Association ("LECA") has filed with the Commission a letter and supporting documentation, dated June 29, 2004, and supplemented by material dated June 30, 2004, and further supplemented by revised tariff pages accompanying an e-mail transmittal by Marlene Bennett dated August 3, 2004. This material seeks to establish revised, that is, increased, switched access rates for members of LECA, ". . . as necessitated by revisions in member companies' revenue requirements." This filing has not been finally approved by the Commission. It is subject to the Commission's order of August 5, 2004, indicating that the tariff revisions are effective as of August 1, 2004, subject to refund with interest pursuant to SDCL § 49-31-7.4. Other material in the docket indicates that final approval is awaiting LECA responses to staff's data requests. Thus, the docket is currently open and remains subject to further proof prior to final action by the Commission.

3. MCI has a direct interest in the outcome of this proceeding. As a certificated local exchange carrier and long distance carrier, MCI and its customers are subject to the payment of switched access charges in order to do business with LECA and its members. Any increase in access rates increases the cost of doing business for MCI and increases the cost of services for MCI's customers.

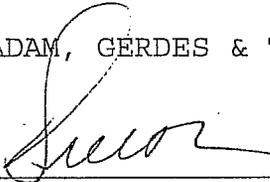

4. This is a late filed intervention. MCI affirmatively alleges that denial of MCI's petition will result in the inability

of MCI to question the basis for LECA's revised, increased switched access rates. MCI has engaged the services of experts to review the Commission's cost model as established by its rules and verily believes that the cost model is outdated and inaccurately reflects the underlying cost support for the switched access rates resulting from the application of the cost model. A denial by the Commission of MCI's petition to intervene would therefore be detrimental to the public interest and likely to result in a miscarriage of justice by further perpetuating artificially high switched access rates for LECA and its members.

WHEREFORE MCI prays that the Commission permit its intervention and participation in this proceeding to examine and cross-examine witnesses, participate in discovery and offer evidence on its own behalf.

Dated this 2nd day of September, 2005.
