Re: Qwest Corporation's 4th Revision 1st Amended Exhibit A to Qwest's South Dakota Statement of Generally Available Terms and Conditions

Dear Ms. Bonrud:

Please find enclosed for filing for approval the original and ten copies of Qwest Corporation's ("Qwest") 4th Revision 1st Amended Exhibit A to Qwest's South Dakota Statement of Generally Available Terms and Conditions. The revisions to Exhibit A encompass changes that Qwest believes will make Exhibit A a more useful resource.

The purposes of the revisions to Exhibit A are to clarify terminology and the presentation of the prices, and to establish organizational and numbering consistency. Qwest reviewed the Exhibit A's filed in its 14-state region, and has now established formatting and sequencing that it will use as a uniform template in all 14 states. Qwest has attached a "Roadmap of Changes" spreadsheet to this cover letter to explain the proposed changes to Exhibit A in an easy-to-read format. Also, Qwest is submitting both redlined and clean versions of the 4th Revision 1st Amended Exhibit A for the Commission's convenience.

A summary of the most substantive changes proposed by Qwest in this filing is set forth below:

- Numbering and/or re-numbering of each element to make it easier to locate elements. These changes are being done across Qwest's 14-state region and will make it easier for our customers to locate the same or similar products in the other states where they do business.

- Reformatting of rate columns so they are consistent throughout the document. The “Recurring, Fixed” column is now titled “Recurring.” All non-distance sensitive rates are located in the “Recurring” column. A “Recurring, per Mile” column contains distance sensitive rates for those elements that have a “per Mile” component. There is no change to the “Nonrecurring” column.
- Two “Note” columns have been added to align notes specifically to a rate element, one for “Recurring” rates and one for “Recurring, per Mile” rates. Notes located in these columns pertain specifically to that rate. For example, in section 9.6.1, the “Recurring, Fixed Rate” of \$24.71 is noted in the “Recurring” note column as “A” and the “Recurring, per Mile” rate of \$0.38 is noted in the “Recurring, per Mile” note column as “A.”
- “Intentionally Left Blank” is used throughout the Exhibit A to preserve numbering consistency.
- Notes have been enhanced to provide additional detail on the source of each rate.
- Removal of section 9.23.7.8.3.4, OC-3, OC-12, OC-48 elements mistakenly added to Exhibit A. Qwest is removing these elements because a customer wanting to order them needs to use a different process. Following is an excerpt taken from the EEL PCAT under "Product Description": Enhanced Extended Loop (EEL) transport and loop facilities may utilize Digital Signal Level 0 (DS0) - Analog Voice Grade, Digital Signal Level 1 (DS1), Digital Signal Level 3 (DS3), or Optical Carrier Level n (OCn) bandwidths. EEL at OCn bandwidths is requested using the Special Request Process.

If you have any questions or concerns regarding this filing, please do not hesitate to contact me. Thank you for your assistance.

Sincerely,

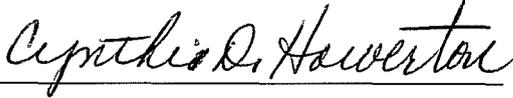

Melissa K. Thompson

South Dakota Roadmap of Changes to the 4th Revision 1st Amended Exhibit A

Activity	From	Current or To"	Element	Note	Explanations
Formatting Changes					
			Numbering / Renumbering		Numbering has been added to each element to make it easier to locate and track. Numbering is consistent across the 14 Qwest states.
			Rate Columns		Recurring rate columns have been redesignated. Recurring is moved to what was formally "Recurring, Fixed." All non-distance sensitive rates are located in the Recurring Column. "Recurring, per Mile" only contains distance sensitive rates for "per Mile" rating.
			Note Columns		Two "note" columns have been added to align with the three rate columns. Each note corresponds with the same named rate column. Notes located in these columns pertain specifically to that rate.
			Headers & Verbiage Clarification		In some cases "headers" have been added to the Exhibit A or verbiage is clarified in order to make the document easier to understand.
			Intentionally Left Blank		Phrase used throughout Exhibit A to preserve numbering
		#	Voluntary Rate Reduction		Footnotes add docket #, effective date and Exhibit A date

[5] Rates addressed in Cost Docket filed on October 15, 2002.

[6] The preliminary QPF costs are included in the space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed in the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.

[7] Effective 8/1/03, Qwest will no longer charge the Recurring and Nonrecurring Charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriated notice is given.

[8] The Cable Unloading/Bridge Tap Removal charge of \$58.50 approved in Docket No. TC96-184 does not apply until further notice.

- [3] ICB, Individual Case Basis pricing.
- [4] Rates per FCC Guidelines.
- [5] Rates addressed in Cost Docket filed on October 15, 2002.
- [6] The preliminary QPF costs are included in the space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed in the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.
- [7] Effective 8/1/03, Qwest will no longer charge the Recurring and Nonrecurring Charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriated notice is given.
- [8] The Cable Unloading/Bridge Tap Removal charge of \$58.50 approved in Docket No.TC96-184 does not apply until further notice.
- [9] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only Basic Vertical Features with non-recurring charges are listed. Non-recurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Features not listed are included in the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [10] A special request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.
- [11] Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.

EL04-026 **In the Matter of the Petition of Black Hills Corporation for a Statement to the Securities and Exchange Commission Regarding Investment in Foreign Utilities.**

Black Hills Corporation (Black Hills) has filed an application with the Securities and Exchange Commission requesting various approvals and authorizations in connection with its anticipated registration as a public utility holding company under PUHCA. In the filing, Black Hills is requesting authorization from the SEC to retain its existing investments in Exempt Wholesale Generators and to issue and finance additional investments in Exempt Wholesale Generators and Foreign Utility Companies. As part of this process, the SEC will send letters to each state regulatory commission having regulatory authority of Black Hills' regulated utility requesting confirmation that such commission's regulatory authority is sufficient to assure that Black Hills' retention of its existing investments and any proposed issue and sale of securities to finance the acquisition of additional investments will not have an adverse impact on Black Hills' customers or the commission's ability to protect the customers of Black Hills Power.
