Re: Long Lines Wireless, LLC Petition for Designation as an ETC TC 06-184 Response to Third Staff Data Request for Additional Information

Dear Mr. Best,

Enclosed are an original and two copies to the Commissions request for additional information for our request for designation as an eligible telecommunications carrier in the State of South Dakota. Should you have any questions or need additional information regarding this request, please contact me at 712.792.3800 or at mcdermot@longlines.com.

Sincerely,

Kristy McDermott
Director of Regulatory Affairs
Long Lines Wireless, LLC

Enclosures

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

IN THE MATTER OF THE PETITION OF
LONG LINES WIRELESS, LLC
FOR DESIGNATION AS AN
ELIGIBLE TELECOMMUNICATIONS CARRIER

PETITION FOR
DESIGNATION AS AN ETC
TC 06-184

Responses to Third Staff Data Request

3-1. While LLW does not plan to actively market to customers that live outside our local service area we cannot prohibit such a customer from being a subscriber. Customers that physically live adjacent to our local service area may choose to subscriber to our service.

3-2. LLW understands that the jurisdiction of the SD PUC does not extend beyond the borders of the State, that is why we have sought and have been granted ETC status in Iowa and will be seeking ETC status in Minnesota and Nebraska in the near future. I have modified attachment to A to reflect "partial" for the exchanges listed in staff data request 3-2.

3-3. LLW is requesting to serve the exchanges listed in staff data request 3-3 and exhibit A has been modified to reflect those changes.

3-4. The Vivian wire center of Springfield has been changed to "entire" in exhibit A.

3-5. The Qwest wire center of N. Valentine has been changed to "partial" in exhibit A.

3-6 A. Red is "in building coverage" and green is mobile coverage.

B. The color is determined by computer generated software called Planet EV, which is an RF industry standard software. The software prints coverage maps given certain inputs such as latitude and longitude of the site, tower height and site wattage.

C. The maps that we sent in exhibit C shows the coverage area rendered from each tower at 100% signal strength. We are not familiar with a map that shows 90 by 90 coverage. Please provide us with more information on your request.

Exhibit A

Rural LECs for Immediate Designation
