EXHIBIT D - AFFIDAVIT

In regard to your request for additional information associated with the petition for Annual ETC Certification recently filed for Dickey Rural Communications, Inc. study area, we provide the following response:

- 1) As is required by the provisions of ARSD § 20:10:32:43.01, Dickey Rural Communications, Inc. is committed to providing service throughout its existing rural service area, or study area, to all customers making a reasonable request for service. The Company also certifies its commitment to provide service to potential customers within the Company's service area but outside its existing network coverage, within a reasonable period of time, if the service does not impose excessive or unreasonable cost, by:
(a) modifying or replacing the requesting customer's equipment;
(b) Extending facilities, such as constructing or extending and access line, deploying a roof-mounted antenna, or installing other equipment; (c) adjusting network or customer facilities; (d) Reselling services from another carrier's facilities to provide service; or (e) Employing, leasing, or constructing additional network facilities such as an access line, a cell site, cell extender, repeater, or other similar equipment.
- 2) Dickey Rural Communications, Inc. has the ability to remain functional in emergency situations as required by the provisions of ARSD § 20:10:43.03. The Company is currently in compliance

with this Commission's "auxiliary and battery power requirements" set forth in ARSD 20:10:33:19.

- 3) Dickey Rural Communications, Inc. certifies that it provides equal access to long distance carriers according to the provisions set forth in ARSD 20:10:32:43.06.
- 4) Progress Report: In the 2005 filing, switching additions for Dickey Rural Communications, Inc. were estimated to be \$83,000, while only \$6,922 took place. The difference exists due to a software upgrade not taking place.
- 5) Dickey Rural Communications, Inc. certifies that it is in compliance with applicable Federal and State consumer protection rules.
- 6) Dickey Rural Communications, Inc. certifies its ability to function in emergency situations as set forth in 20:10:32:43.03.
- 7) Dickey Rural Communications, Inc. certifies that it will provide equal access to long distance carriers in the event that no other eligible telecommunications carrier is providing equal access within the service area.

Troy M. Schilling, Chief Financial Officer

Subscribed and sworn to before me this 25th day of September 2006.

EXHIBIT E – 2 Year Plan
ARSD 20:10:32:43.02

The strategic plan we develop annually covers both Dickey Rural Telephone Coop and Dickey Rural Communications, Inc. In regards to system upgrades and network management, they are essentially operated as one "network". We are, at this time, planning to move forward with a fiber-to-the-home project in 2007 and 2008. Between January 2007 and December 2007, we estimate that we will place fiber facilities to the premises of approximately 1,000 subscribers. Between January 2008 and December 2008, we again estimate that we will place fiber facilities to the premises of approximately 1,000 subscribers. In each year the 1,000 subscribers represent both Dickey Rural Telephone Coop and Dickey Rural Communications, Inc. subscribers, but specifically how many in each company will vary depending on variables such as the amount of cable deterioration and inclement weather.

Troy M. Schilling, Chief Financial Officer
