Subject: RE: South Dakota

Phil:

Here are some general bullet points outlining the terms under which Qwest would consider providing transit services to ILECs in South Dakota.

1. 1 way trunks turned into 2 way trunks. Qwest and the ILECs will pay their own costs of doing this work.
2. Transit Rate for all transit traffic \$.0045 per minute for all ILEC-originated traffic that transits our network whether across these new 2 way trunks or across another existing connection.
3. The ILECs may use another provider for LNP Dips--they don't have to use QC. But if they send us QC call that has not been dipped, QC will apply a default dip rate, which is in section 13 of the tariff, cited below.

| Service Description | Monthly Recurring Charges | Non-Recurring Charges |
|---------------------|-----------------------------------|-----------------------------------|
| LNP Queries | See FCC Tariff #1 Section 13 & 20 | See FCC Tariff #1 Section 13 & 20 |
| | | |

Jason,

I think you were going to get me a bullet point list on the transit issue. What's the status?

Thanks.

Phil
