4. Applicant's registered agent is:

Ronald D. Olinger

Pierre, SD 57501

Description of Authority Requested

5. Applicant seeks authority to operate as a reseller of intrastate telecommunications services to the public on a statewide basis. Applicant seeks authority to offer a full range of "1+" interexchange telecommunications services on a resale basis. Specifically, Applicant seeks authority to provide MTS, in-WATS, out-WATS services and Calling Card services.

6. Applicant does not intend to provide operator services, 900 or 700 services.

7. Applicant owns no transmission facilities. Applicant will offer service to its subscribers using facilities of the communications networks of AT&T, other facilities-based IXC's and the local exchange telephone companies ("LECs").

8. Applicant has no plans at this time to construct any telecommunications transmission facilities of its own and seeks no construction authority by means of this Application. Applicant will operate exclusively as a reseller.

9. Applicant will abide by all rules governing telecommunications resellers, which the Commission has promulgated or may promulgate in the future, unless application of such rules is specifically waived by the Commission.

Proposed Services

10. Applicant intends to offer MTS, in-WATS, out-WATS, and calling card services to subscribers within South Dakota. Applicant combines high quality transmission services with very competitive rates, flexible end user billing, professional customer service and excellent reporting to create a unique blend, which meets the individualized needs of such customers.

11. Applicant's services are designed to be especially attractive to residential and business users.

12. Applicant's intends to engage in "switchless" resale. Applicant will arrange for the traffic of underlying subscribers to be routed directly over the networks of Applicant's network providers.

13. Applicant is committed to the use of ethical sales practices. All distributors of its products must commit in writing to market Applicant's services in a professional manner, and to fairly and accurately portray Applicant's services and the charges for them.

In support of Applicant's managerial and technical ability to provide the services for which authority is sought herein, Applicant submits a description of the background and experience of its management as **Exhibit C**. In support of Applicant's financial ability to provide the proposed services, Applicant attaches financials as **Exhibit D**.

Public Interest Considerations

15. Applicant's entry into the South Dakota marketplace is in the public interest because Applicant intends to make a uniquely attractive blend of service quality, network management and reporting, and low rates available.

16. In addition to the direct benefits delivered to the public by its services, Applicant's entry into the South Dakota marketplace will benefit the public indirectly by increasing the competitive pressure felt by existing IXCs, spurring them to lower costs and improve services in response.

Requested Regulatory Treatment

17. Applicant is a non-dominant reseller of interexchange telecommunications services. Applicant requests to be regulated by the Commission in the same relaxed fashion extended to other, similarly situated resellers.

Initial Proposed Tariff

18. TARIFF FORMAT

Sheet Numbering - Sheet numbers appear in the upper right hand corner of the page. Sheets are numbered sequentially and from time to time new pages may be added to the Tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Sheets 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision, all revisions made in a given filing are designed by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

If, based on a Service order by a Customer, any construction has either begun or been completed, but no Services provided, the nonrecoverable costs of such construction shall be borne by the Customer.

2.8.2. The Company's bills are due upon receipt. Amounts not paid within 30 days from the Bill Date of the invoice will be considered past due. Customers will be assessed a late fee on past due amounts in the amount not to exceed the maximum lawful rate under applicable state law. If a Customer presents an undue risk of nonpayment at any time, the Company may require that Customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash.

The Company will cease billing the Special Access surcharge upon receipt of an Exemption Certificate or if the surcharge is removed by the LEC.

2.8.6. In the event the Company incurs fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

- 2.10.1. All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.
- 2.10.2. If at any future time a municipality acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such municipality. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.
- 2.10.3. If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.
- 2.10.4. When utility or telecommunications assessments, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate or intrastate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate or intrastate access charges, the amounts of such taxes or fees will be billed to Customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each Customer's bill is determined by the interstate or intrastate telecommunications service provided to and billed to an end user/customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

2.10.5. When any municipality, or other political subdivision, local agency of government, or department of public utilities imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's Customers receiving service within the territorial limits of such municipality, other political subdivision, local agency of government, or public utility commission.

2.10.6. The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amount it is required by governmental or quasi-government authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund, the Primary Interexchange Carrier Charge, and compensation to payphone service providers for use of their payphones to access the Company's services.

2.11. Method for Calculation of Airline Mileage

2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 in accordance with the following formula:

$$\text{the square root of: } \frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

$$\text{the square root of: } \frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.
