**Important Notice Regarding the DTV Transition**

The nationwide switch to digital television broadcasting will be complete on June  
12, 2009, but your local television stations may switch sooner. After the switch,  
analog only television sets that receive TV programming through an antenna will  
need a converter box to continue to receive over-the-air TV. Watch your local sta-  
tions to find out when they will turn off their analog signal and switch to digital-only  
broadcasting. Analog-only TVs should continue to work as before to receive low  
power, Class A or translator television stations and with cable and satellite TV  
services, gaming consoles, VCRs, DVD players, and similar products.

Information about the DTV transition is available from your local television stations,  
www.DTV.gov, 1-888-CALL-FCC (TTY 1-888-TELL-FCC), or through McCook  
Cooperative Telephone Company at 605-425-2238 or www.triotel.net, and from  
www.dtv2009.gov or 1-888-DTV-2009 (TTY 1-877-530-2634) for information about

### **Important Notice Regarding the DTV Transition**

After February 7, 2009, a television receiver with only an analog broadcast tuner will require a converter box to receive full power over-the-air broadcasts with an antenna because of the Nation's transition to digital broadcasting. Analog-only TVs should continue to work as before to receive low power, Class A or translator television stations and with cable and satellite TV services, gaming consoles, VCRs, DVD players and similar products. Information about the DTV transition is available from [www.DTV.gov](http://www.DTV.gov) and from [www.dtv2009.gov](http://www.dtv2009.gov) or 1-888-DTV-2009 for information about subsidized coupons for digital-to-analog converter boxes.
