Re: Unbundled Access to Network Elements, WC Docket No. 04-313; Review of Section 251 Unbundling Obligations for Incumbent Local Exchange Carriers, CC Docket No. 01-338

Dear Mr. Navin:

On February 18, 2005, in response to a request by the Wireline Competition Bureau, Qwest submitted lists identifying by Common Language Location Identifier ("CLLI") code the wire centers in Qwest's operating area satisfying the nonimpairment thresholds for high capacity transport and loop facilities established in the *Triennial Review Remand Order* ("TRRO").¹ On July 8, 2005, after completing a detailed verification process, Qwest filed revised lists of the wire centers in Qwest's region meeting the TRRO's nonimpairment thresholds for high capacity transport and loop facilities.²

It has recently come to our attention that one of the wire centers listed in Attachment B "Triennial Review Remand Order, Qwest Wire Centers that Satisfy the Nonimpairment Standards for DS1 and DS3 Loops, Sorted by Loop Type" was correctly identified by "CLLI8", but the "Wire Center Name" for the wire center was incorrect. The affected wire center CLLI8 is "DNVRCOMA", which was identified as "Colorado Springs Main" on the July 8th filing. The correct name for the wire center is "Denver Main." We have verified that all data provided is correctly associated with the CLLI code for Denver Main (DNVRCOMA). As a result, we are submitting a revised list of wire centers in Qwest's operating area that satisfy the nonimpairment

thresholds established in the *TRRO*, correcting only the wire center name for this one wire center. Although there are no changes to Attachment A, we are submitting the entire filing for ease of use by interested parties.

Please let me know if you have any questions about this matter.

Sincerely,
