

Jefferson Telephone Company  
South Dakota ETC Certification  
Responses to SD PUC questions on Docket TC13-098

2-1. What are Jefferson Telephone Company's future broadband plans?

Jefferson response: Jefferson Telephone Company is continuing to deploy and upgrade existing broadband services for its customers so that they can receive higher data speeds. Jefferson Telephone Company's yearend goal is that 61% of customers have access to 100 Mbps data speeds, 25% of customers have access to 12Mbps and 10% of customers have access to 8 Mbps.
