(100) Service Quality Improvement Reporting Data Collection Form	FCC Form 481 OMB Control No. 3060-0986/OMB Control No. 3060-0819 July 2013
---	--

<010> Study Area Code	391668
<015> Study Area Name	KENNEBEC TEL CO
<020> Program Year	2015
<030> Contact Name - Person USAC should contact regarding this data	Judy Christiansen
<035> Contact Telephone Number - Number of person identified in data line <030>	4028181322 ext.
<039> Contact Email Address - Email Address of person identified in data line <030>	jchristiansen@consortiaconsulting.com

<110> Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
<111> year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please check these boxes below to confirm that the attached documents(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How (USF) was used to improve service quality
- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Attachments

Kennebec Telephone Company

Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules for Voice and Broadband Services

Service quality standards and consumer protection rules for broadband are not as defined as the rules for voice services. The Company complies with any service quality standards and consumer protection rules for broadband that are out there now and any that will be defined in the future.

Service Quality Standards

For voice services, the Company:

- Provides voice grade access to the public switched network.
- Provides flat rated local exchange service with no additional charge to end users.
- Provides access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911.
- Provides toll blocking and toll limitation services.

For voice and broadband services, the Company:

- Advertises the availability of its services and the charges using media of general distribution and/or on its website.
- Maintains a business office providing customers with access to a customer service representative either in person or via a local telephone call or toll-free telephone number during business hours.
- Directs after hour calls to the Company's help desk.
- Directs trouble reports to the on-call technician.
- Tracks all service orders to ensure they are completed in a timely manner.
- Measures its service connection and service interruption performance on a regular basis.
- Trains employees to:
 - Answer all incoming calls promptly.
 - Respond to all inquiries for information promptly and courteously.
 - Investigate thoroughly all customer complaints and handle appropriately according to the Company's guidelines for resolution of customer complaints.
 - Be knowledgeable about products and service offerings so they can assist the customer with selecting the best service option.
- Has a process for periodic inspection, testing and preventive maintenance of its equipment to permit the rendering of safe, adequate and continuous service at all times.
- Meets or exceeds the standards established by the state commission and provides any reports required in accordance with the state commission's rules.

Consumer Protection Rules

The Company has established operating procedures designed to facilitate compliance with applicable consumer protection rules which include compliance with the Customer Proprietary Network Information (CPNI) rules. The operating procedures include:

- Appointment of a compliance officer.
- A manual detailing the specific procedures for protecting consumer information.
- Employee training on an annual basis.
- A disciplinary process for improper use of consumer information.

If complaints are filed with the Company regarding consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

Kennebec Telephone Company

Functionality in Emergency Situations

Back-Up Power

The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Switch, Remote, DLCs and ONTs all have minimum 8 hour battery backup. Switch and Remote have standby generators, and we have portable generators to provide power to DLC cabinets if needed. We have a plan to replace ONT batteries with charged spare batteries. This applies to both voice and broadband services to our customers.

Rerouting of Traffic around Damaged Facilities

The Company is able to reroute traffic around damaged facilities. Our regulated inter-exchange and intra-exchange traffic is on a SONET ring with diverse routing to prevent being isolated by a fiber cut. The same local loop serves both the voice and broadband services to the subscriber.

Traffic Spikes

We have a significant amount of unused switching capacity to handle sporadic traffic spikes resulting from emergency situations. We have 96 2-way trunks between Kennebec Telephone Company and SDN for inter-exchange traffic. We have 24 trunks for incoming wireless from SDN or outgoing LNP traffic to SDN. We have one T1 for incoming traffic from Century Link. As for broadband, we routinely monitor the overall customer usage and feel we have enough capacity to handle usage spikes.

Five-Year Plan Kennebec Telephone Company, Inc. (391668)

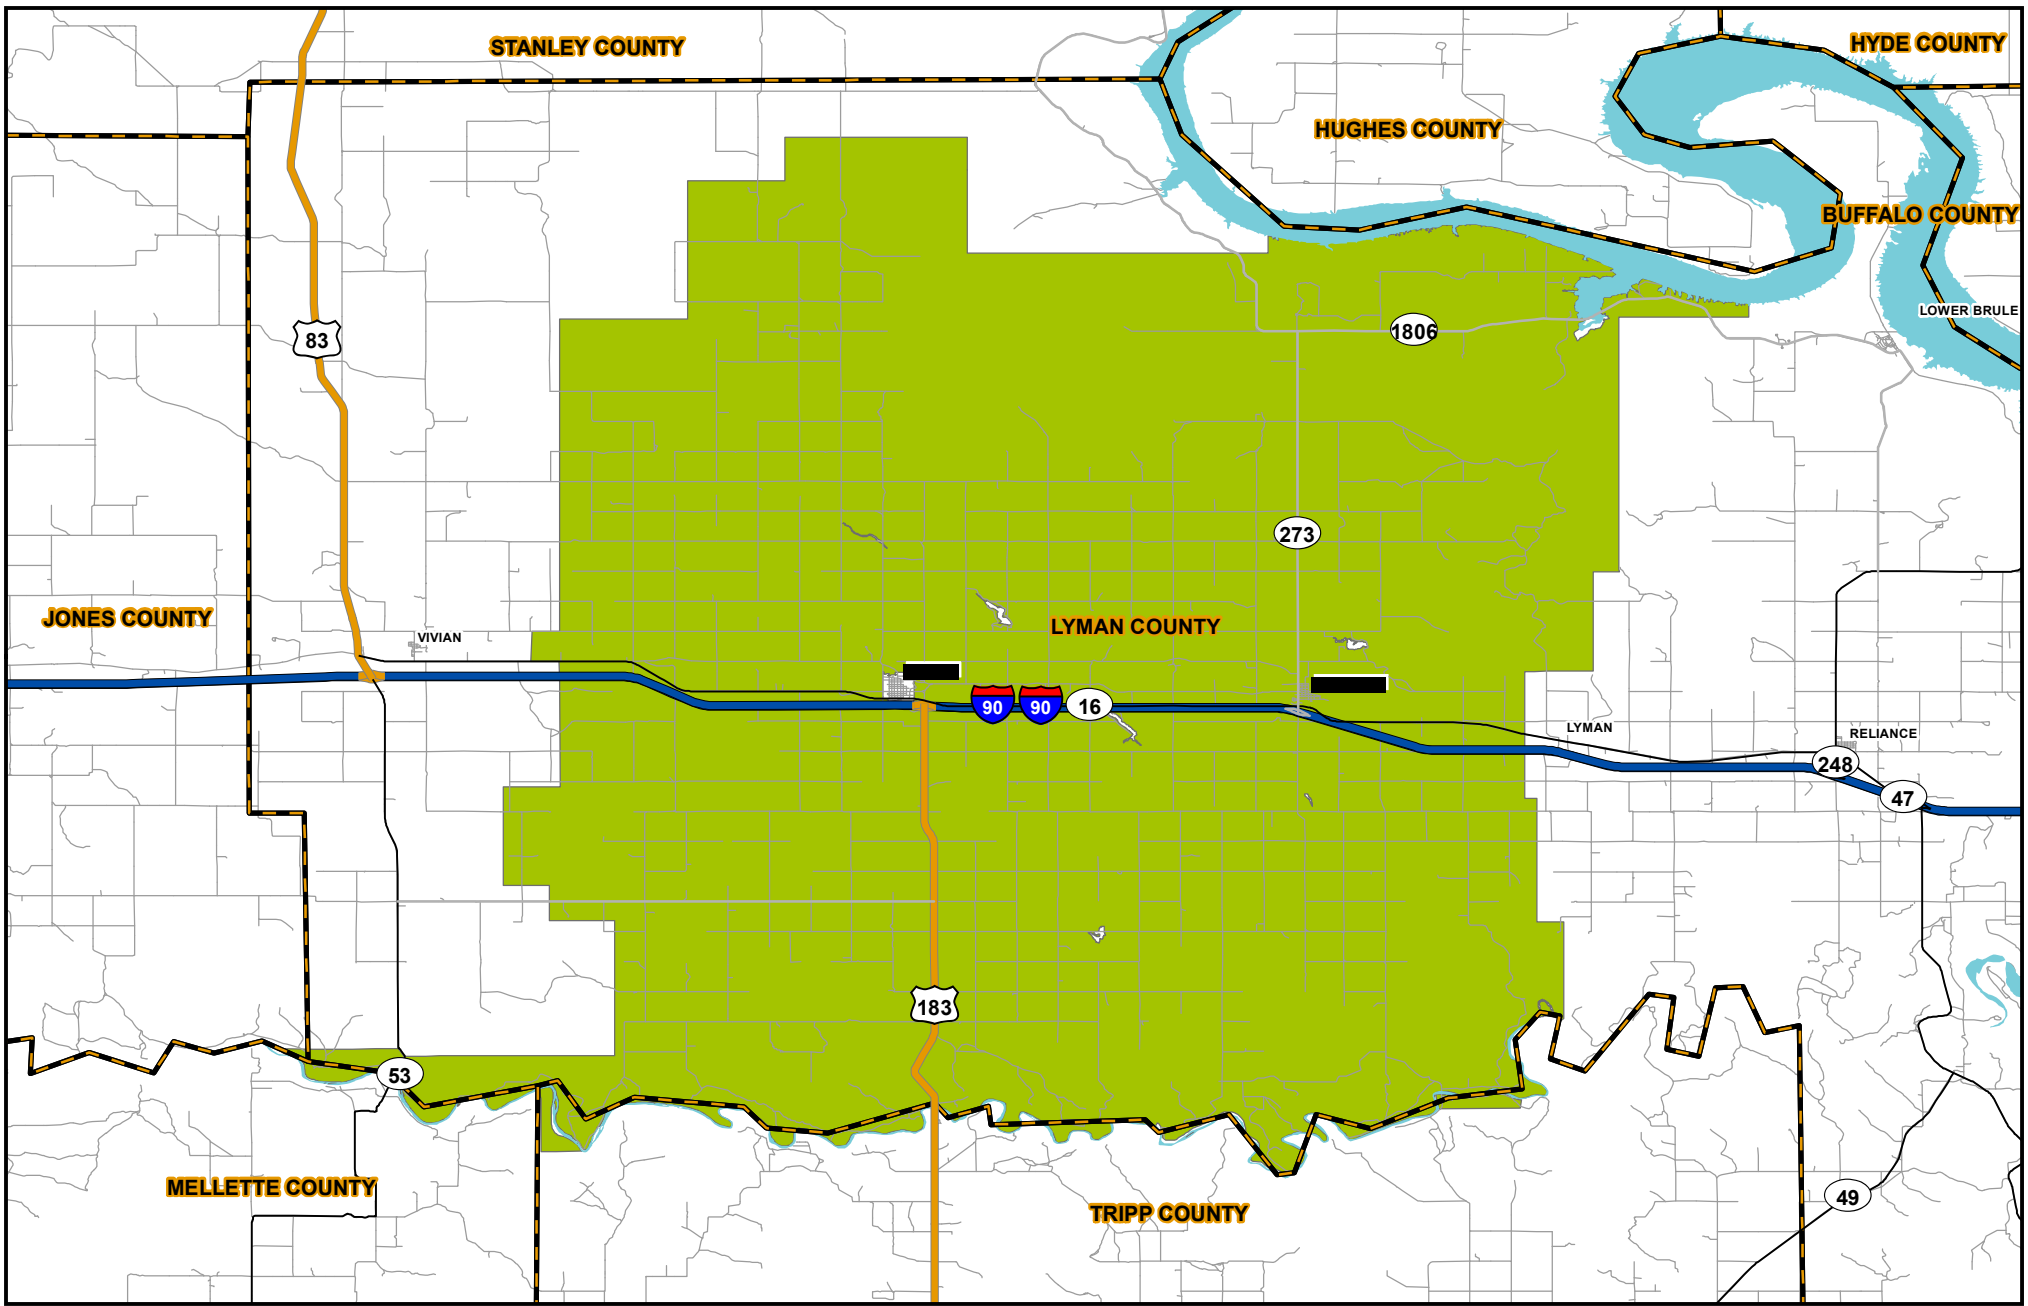

Pursuant to 47 C.F.R. 54.202(a)(1)(ii), Kennebec Telephone Company, Inc. submits a five-year plan that describes with specificity proposed improvements or upgrades to its network throughout its proposed service area. Kennebec Telephone Company, Inc. also provides estimates regarding the area and population that will be served as a result of the improvements. This plan is based on Kennebec Telephone Company, Inc. current business and financial conditions and is subject to change as a result of changes in those conditions.

Pursuant to 47 C.F.R. 54.313, in each subsequent year, Kennebec Telephone Company, Inc. will file a progress report on its five-year service quality improvement plan pursuant to 54.202(a), including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve service quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year.

As of January 1, 2014, approximately [REDACTED] of the [REDACTED] and [REDACTED] exchanges have access to broadband Internet service through Kennebec Telephone Company fiber optic and or copper facilities. Subscribers served by these facilities have access that meets or exceeds the 4/1 Mbps standard. No capital improvements are required for those subscribers meeting the 4/1 Mbps standard other than maintenance of facilities and as such, no capital investment to these subscribers is outlined in this plan.

Although no capital improvements are required in the [REDACTED] and [REDACTED] exchanges to bring subscribers to the 4/1 Mbps standard, Kennebec Telephone Company, Inc. incurred approximately [REDACTED] in depreciation expense and [REDACTED] in on-going maintenance and operating expenses in calendar year 2013. It is reasonable to expect depreciation, maintenance, and operating expenses for the 2015 through 2019 calendar years will continue at similar amounts.

Attached is a map showing Kennebec Telephone Company's broadband service territory where 4/1 Mbps standard is provided to all existing customers.

Kennebec Telephone Company, Inc.

Description of Tribal Engagement

The Company provides services in Lower Brule Reservation. A meeting with the Lower Brule Sioux Tribe was held on January 24, 2013. In accordance with provisions in the FCC's USF and ICC Transformation Order, paragraphs 636 and 637, and 47 CFR 54.313(a)(9), at the meeting with the Lower Brule Sioux Tribe, the Company outlined the following topics to be discussed throughout the process:

- Needs Assessment and Deployment Planning
- Communications Needs
- Feasibility and Sustainability Planning
- Marketing Services in a Culturally Sensitive Manner
- Rights of Way and Other Permitting and Review Process
- Tribal Business and Licensing Requirements

On October 3, 2013, by letter sent via certified mail to Michael Jandreau, the Company requested another meeting with the Lower Brule Sioux Tribe to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to this letter. The Company submitted another letter via certified mail on December 3, 2013. The Company did not receive a response to this letter either.

The Company will continue to try to schedule another meeting with the Tribal Authorities to continue further discussions, along with tribal input, on all of the above topics. In particular, the Company and the Tribal Authority discussions relating to needs and service deployment will be focused on community anchor institutions. The feasibility and sustainability of communications services on tribal lands will be discussed and the Company will, with assistance from the Tribal Authorities, attempt to identify additional steps that can be taken to make essential communications services deployed on Tribal lands both feasible and sustainable. The Company and Tribal Authorities will also discuss and explore ways in which they can coordinate or partner to ensure that services are marketed on tribal lands in a manner that will relate to the community and resonate with consumers, with the aim of increasing service adoption. At such meetings, the Company will also be prepared to discuss the relevant rights-of-way and other permitting and review processes, as well as any challenges associated with these processes. And finally, the Company will come to any such meetings prepared to discuss and engage the Tribal Authorities on any relevant and applicable Tribal business and licensing requirements.

October 3, 2013

Michael Jandreau
PO Box 187
Lower Brule, SD 57548-0187

Dear: Mr. Jandreau,

The Federal Communications Commission (FCC), as part of its 2012 Order reforming the federal universal service mechanisms related to telecommunications and information services, adopted new "Tribal Engagement" provisions that are intended to improve communications and foster a greater understanding between service providers and Tribal entities of the factors necessary to deploy and sustain telecommunication services on Tribal lands. See FCC Public Notice, Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Engagement Obligation Provisions of the Connect America Fund, DA 12-1165, released July 19, 2012.

Pursuant to the FCC's rules related to Tribal Engagement, Kennebec Telephone Co., Inc. would, as soon as possible, like to begin discussions with the Lower Brule Sioux Tribe in a manner consistent with the FCC rules. Accordingly, we would request a meeting with the Tribe and it is our hope that this meeting could be held sometime prior to the end of October, 2013. The purpose of this meeting will, generally, be to exchange information related to the deployment and provisioning of communications services on Tribal lands.

While Kennebec Telephone Co., Inc. leaves to your discretion attendees from the tribe at this requested meeting, it is important that at least some of the tribal representative attendees at the meeting are "decision-makers," as this can change the perspectives of the discussions. Kennebec Telephone Co., Inc. asks that the Lower Brule Sioux Tribe provide a name and contact information for a Tribal representative who can assist in scheduling and arranging a meeting with the appropriate Tribal government staff and leaders to discuss deployment and sustainability of telecommunications services on Tribal lands. This information may be provided to the undersigned by calling (605) 869-2220, or through an e-mail directed to rodb@kennebectelephone.com.

Thank you for your cooperation in this matter. We look forward to discussing these important matters with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Bowar", with a horizontal line extending to the right.

Rod Bowar
President/Manager
Kennebec Telephone Co., Inc.

December 3, 2013

Michael Jandreau
PO Box 187
Lower Brule, SD 57548-0187

Re: FCC Tribal Engagement Provisions – Urgent

Dear: Mr. Jandreau,

As noted in my earlier letter to you dated October 3, 2013 the Federal Communications Commission (FCC), as part of a recent Order reforming the federal universal service mechanisms related to telecommunications and information services, has adopted new requirements that are intended to facilitate engagement between telecommunications companies serving Tribal Lands. The FCC's new "Tribal Engagement" provisions are intended to improve communications and foster a greater understanding between service providers and Tribal entities of the factors necessary to deploy and sustain telecommunication services on Tribal lands. The ultimate aim is to benefit Tribal government leaders, carriers/service providers, and consumers living on Tribal lands by providing greater connectivity to 21st century economic opportunities, education, health care, and public safety. See FCC Public Notice, Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Engagement Obligation Provisions of the Connect America Fund, DA 12-1165, released July 19, 2012.

Although the FCC's rules related to Tribal Engagement still await approval by the federal Office of Management and Budget (OMB) and will not legally take effect until that occurs, Kennebec Telephone Co., Inc. would, as soon as possible, like to have discussions with the Lower Brule Sioux Tribe in a manner consistent with the pending FCC rules. We request that a meeting with the Tribe be scheduled promptly and that it be held prior to the end of this year. The purpose of this meeting will, generally, be to exchange information related to the deployment and provisioning of communications services on the Lower Brule Reservation.

In regard to this requested meeting, it is important that at least some of the individuals attending the meeting are "decision-makers." As noted in the FCC's July 19th Public Notice providing further guidance, "this engagement cannot be merely between sales and marketing individuals on one side and administrative staff or advisors on the other. The perspectives on needs, expectations, priorities, and abilities that would formulate meaningful exchange often can come only from those with the requisite authority to make decisions."

It is Kennebec Telephone's desire to promptly proceed with Tribal Engagement on these matters related to the provisioning of communications services on the Lower Brule Reservation and, accordingly, we ask at this time for the name and contact information of someone with the Lower Brule Sioux Tribe who can assist in scheduling and arranging a meeting with the appropriate Tribal government staff and leaders to discuss the items referenced above. Again, as noted above it is important that this meeting being held prior to the end of this month. The contact information requested may be provided to the undersigned by calling (605) 869-2220, or through an e-mail directed to rodb@kennebectelephone.com.

Thank you for your cooperation in this matter. We look forward to discussing these important matters with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Bowar", written in a cursive style.

Rod Bowar
President/Manager
Kennebec Telephone Co., Inc.

Kennebec Telephone Company

Lifeline Terms and Conditions

Kennebec Telephone Company (the “Company”) offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

- Low-Income Home Energy Assistance Program (LIHEAP)
- Federal Public Housing Assistance (Section 8)
- Supplemental Nutrition Assistance Program (SNAP)
- Medicaid
- National School Lunch Program’s Free Lunch Program
- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year’s statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer’s participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

2014 Federal Poverty Guidelines – 135%

Household Size	48 Contiguous States and D.C.	Alaska	Hawaii
1	\$15,755	\$19,683	\$18,117
2	\$21,236	\$26,541	\$24,422
3	\$26,717	\$33,399	\$30,726
4	\$32,198	\$40,257	\$37,031
5	\$37,679	\$47,115	\$43,335
6	\$43,160	\$53,973	\$49,640
7	\$48,641	\$60,831	\$55,944
8	\$54,122	\$67,689	\$62,249
For each additional person, add	\$5,481	\$6,858	\$6,305

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

Tribal Eligibility

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines.

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

The Company's Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. The Company's Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by the Company. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0572-0031. The time required to complete this information collection is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
