

Docket Number: TC14-056  
Subject Matter: Staff's Data Request 1  
Request to: Long Lines Wireless LLC  
Request from: South Dakota Public Utilities Commission Staff  
Date of Request: 7/9/14  
Responses Due: 7/23/14

1.1. Why is Long Lines Wireless LLC filing for ETC certification for Federal Universal Support if there are zero customers and no existing plans for capital additions or service quality improvements?

The Company continues to be eligible for the Federal Universal Support for the timeframe that it operated its wireless operations in calendar year 2013 due to the sale of the operation did not include earned Federal Universal Support. In order to receive such support, the Company must maintain its ETC status thereby requiring the filing of this report to the SDPUC to maintain ETC status.

1.2. Explain why Interstate Common Line Support (ICLS) is not reported in Exhibit A and could you explain why ICLS and Local Switching Support (LSS) are negative.

See attached schedule of disbursements per USAC.
