<039>	Contact Email Address - Email Address of person identified in data line <030>	cindy.hewitt@mosadams.com

<110>	Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input checked="" type="radio"/> <input type="radio"/>
<111>	Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input checked="" type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

<113>	Maps detailing progress towards meeting plan targets	Yes
<114>	Report how much universal service (USF) support was received	Yes
<115>	How much (USF) was used to improve service quality and how support was used to improve service quality	Yes
<116>	How much (USF) was used to improve service coverage and how support was used to improve service coverage	Yes
<117>	How much (USF) was used to improve service capacity and how support was used to improve service capacity	Yes
<118>	Provide an explanation of network improvement targets not met in the prior calendar year.	Yes

RC Technologies
Response to Line 112
Study Area 391674

RC Technologies has received [REDACTED] in high cost support funds for the time frame of January through June of 2015. This includes [REDACTED] in CAF support, [REDACTED] in ICLS support and [REDACTED] in High Cost Loop Support. The universal support to date has been used [REDACTED] for operating expenses and ongoing maintenance as mentioned in the 5 year plan listed below that was filed in 2014. The continued operating and maintenance fees are being incurred to improve service quality to customers. The company is already at the 4/1 standard in all of their exchanges. See the map below that shows RC Technologies broadband service territory where 4/1 Mbps standard is provided to all existing customers.

The five year plan for last year was filed under Roberts County Telephone Assn. On 1/1/2015 Roberts County Telephone Assn was merged with its other affiliates and now is doing business as RC Technologies under study area 391674.

Five-Year Plan Roberts County Telephone Coop Assn (391674)

Pursuant to 47 C.F.R. 54.202(a)(1)(ii), Roberts County Telephone Coop Assn submits a five-year plan that describes with specificity proposed improvements or upgrades to its network throughout its proposed service area. Roberts County Telephone Coop Assn also provides estimates regarding the area and population that will be served as a result of the improvements. This plan is based on Roberts County Telephone Coop Assn current business and financial conditions and is subject to change as a result of changes in those conditions.

Pursuant to 47 C.F.R. 54.313, in each subsequent year, Roberts County Telephone Coop Assn will file a progress report on its five-year service quality improvement plan pursuant to 54.202(a), including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve service quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year.

As of January 1, 2014, approximately 100% of the New Effington, Claire City, Veblen, Peever, Wilmot and Summit exchanges have access to broadband Internet service through Roberts County Telephone Coop Assn fiber optic and or copper facilities. Subscribers served by these facilities have access that meets or exceeds the 4/1 Mbps standard. No capital improvements are required for those subscribers meeting the 4/1 Mbps standard other than maintenance of facilities and as such, no capital investment to these subscribers is outlined in this plan.

Although no capital improvements are required in the New Effington, Claire City, Veblen, Peever, Wilmot and Summit exchanges to bring subscribers to the 4/1 Mbps standard, Roberts County Telephone Coop Assn incurred approximately [REDACTED] in depreciation expense and [REDACTED] in on-going maintenance and operating expenses in calendar year 2013. It is reasonable to expect depreciation, maintenance, and operating expenses for the 2015 through

RC Technologies
Response to Line 112

Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules for Voice and Broadband Services

Service quality standards and consumer protection rules for broadband are not as defined as the rules for voice services. The Company complies with any service quality standards and consumer protection rules for broadband that are out there now and any that will be defined in the future.

Voice Network

- Provides voice grade access to the public switched network.
- Provides flat rated local exchange service with no additional charge to end users.
- Provides access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911.
- Provides toll blocking and toll limitation services.
- Advertises the availability of its services and the charges using media of general distribution and/or on its website.
- Maintains a business office providing customers with access to a customer service representative either in person or via a local telephone call or toll-free telephone number during business hours.
- Directs after hour calls to the Company's help desk.
- Directs trouble reports to the on-call technician.
- Tracks all service orders to ensure they are completed in a timely manner.
- Measures its service connection and service interruption performance on a regular basis.
- Trains employees to:
 - Answer all incoming calls promptly.
 - Respond to all inquiries for information promptly and courteously.
 - Investigate thoroughly all customer complaints and handle appropriately according to the Company's guidelines for resolution of customer complaints.
 - Be knowledgeable about products and service offerings so they can assist the customer with selecting the best service option.
- Has a process for periodic inspection, testing and preventive maintenance of its equipment to permit the rendering of safe, adequate and continuous service at all times.
- Meets or exceeds the standards established by the state commission and provides any reports required in accordance with the state commission's rules.

Consumer Protection Rules

The Company has established operating procedures designed to facilitate compliance with applicable consumer protection rules which include compliance with the Customer Proprietary Network Information (CPNI) rules. The operating procedures include:

- Appointment of a compliance officer.
- A manual detailing the specific procedures for protecting consumer information.
- Employee training on an annual basis.
- A disciplinary process for improper use of consumer information.

If complaints are filed with the Company regarding consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

Functionality in Emergency Situations for Voice

Back-Up Power

The Company can ensure functionality without an external power source. All of our DLC's remote locations and central offices have an 8 hour battery backup system. We have a fixed generator at our central offices and portable generators for our remote DLCs. This applies to both voice and broadband services to our customers.

Rerouting of Traffic around Damaged Facilities

are using a 10 Gig Ethernet ring throughout our company. We are also using an OC48 ring shared with adjoining companies. These provide diverse routing in case of a cable splice or other outage. The same local loop serves both the broadband and voice services for the customer.

Traffic Spikes

The company has adequate switching facilities to handle sporadic traffic spikes. It can take reasonable steps to reroute traffic or add capacity to manage traffic spikes throughout its network as emergency situations require. Broadband bandwidth is monitored on a regular basis. If usage peaks near the allotted bandwidth, we can add additional bandwidth as needed.

Roberts County Telephone Cooperative Association

Description of Tribal Engagement

The Company provides service in the area of Sisseton Wahpeton Oyate (“SWO”) Tribe. On October 8, 2013, by letter sent via certified mail to the Tribal Chairman, Company requested a meeting with the SWO Tribe to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. Company sent an email on October 31, 2013, attaching the letter previously sent, and again asked the Tribal Chairman to please contact the Company. The Company has not received a response to its letter or email.

In accordance with provisions in the FCC’s USF and ICC Transformation Order, paragraphs 636 and 637, and 47 CFR 54.313(a)(9), at the meetings with the Tribal Authorities, the Company will, with tribal input, develop a needs assessment to assist with future service deployments on Tribal lands. In particular, the Company and the Tribal Authority discussions relating to needs and service deployment will be focused on community anchor institutions. The feasibility and sustainability of communications services on tribal lands will be discussed and the Company will, with assistance from the Tribal Authorities, attempt to identify additional steps that can be taken to make essential communications services deployed on Tribal lands both feasible and sustainable. The Company and Tribal Authorities will also discuss and explore ways in which they can coordinate or partner to ensure that services are marketed on tribal lands in a manner that will relate to the community and resonate with consumers, with the aim of increasing service adoption. At such meetings, the Company will also be prepared to discuss the relevant rights-of-way and other permitting and review processes, as well as any challenges associated with these processes. And finally, the Company will come to any such meetings prepared to discuss and engage the Tribal Authorities on any relevant and applicable Tribal business and licensing requirements.

October 8th, 2013
Sisseton-Wahpeton Oyate
PO Box 509
Agency Village, SD 57262-0509

Dear Chairman Shepherd:

The Federal Communications Commission (FCC), as part of its 2012 Order reforming the federal universal service mechanisms related to telecommunications and information services, adopted new "Tribal Engagement" provisions that are intended to improve communications and foster a greater understanding between service providers and Tribal entities of the factors necessary to deploy and sustain telecommunication services on Tribal lands. See FCC Public Notice, Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Engagement Obligation Provisions of the Connect America Fund, DA 12-1165, released July 19, 2012.

Pursuant to the FCC's rules related to Tribal Engagement Roberts County Telephone would, as soon as possible, like to begin discussions with Sisseton-Wahpeton Oyate in a manner consistent with the FCC rules. Accordingly, we would request a meeting with the Tribe and it is our hope that this meeting could be held sometime prior to the end of October, 2013. The purpose of this meeting will, generally, be to exchange information related to the deployment and provisioning of communications services on Tribal lands.

While Roberts County Telephone leaves to your discretion attendees from the tribe at this requested meeting, it is important that at least some of the tribal representative attendees at the meeting are "decision-makers," as this can change the perspectives of the discussions. Roberts County Telephone asks that Sisseton-Wahpeton Oyate provide a name and contact information for a Tribal representative who can assist in scheduling and arranging a meeting with the appropriate Tribal government staff and leaders to discuss deployment and sustainability of telecommunications services on Tribal lands. This information may be provided to the undersigned by calling (605) 637-5211 and ask for Scott Bostrom, or through an e-mail directed to sbostrom@tnics.com.

Thank you for your cooperation in this matter. We look forward to discussing these important matters with you.

Sincerely, 
General Manager, Roberts County Telephone

Dear Chairman Shepherd,

Earlier in the month I sent a letter asking to meet and discuss your telecommunication needs. These are the exchanges we have service in: New Effington, Clarie City, Veblen, Peever, Wilmot and Summit. I have also attached the letter that was sent on October 8th.

I look forward to hearing from you, even if for a brief call, I can be reached at 605-637-5211.

Thanks,

Voice Services Comparability Report

Pursuant to 47 C.F.R. § 54.313 (a) (10) RC Technologies is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$47.48 as specified in Public Notice DA 15-470 issued on April 16, 2015. RC Technologies current total local end-user rate¹ of \$16.00 is not above the standard deviation as specified in the USF/ICC Transformation Order.²

¹ Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238

² USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."

<1220> Link to Public Website

HTTP

"Please check these boxes below to confirm that the attached document(s), on line 1210, or the website listed, on line 1220, contains the required information pursuant to § 54.422(a)(2) annual reporting for ETCs receiving low-income support, carriers must annually report:

- <1221>** Information describing the terms and conditions of any voice telephony service plans offered to Lifeline subscribers,
- <1222>** Details on the number of minutes provided as part of the plan,
- <1223>** Additional charges for toll calls, and rates for each such plan.

Response to line 1210
RC Technologies
391674

Lifeline Terms and Conditions

RC Communications, Inc. (the "Company") offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

Low-Income Home Energy Assistance Program (LIHEAP)
Federal Public Housing Assistance (Section 8)
Supplemental Nutrition Assistance Program (SNAP)
Medicaid
National School Lunch Program's Free Lunch Program
Supplemental Security Income (SSI)
Temporary Assistance for Needy Families (TANF)

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

2015 Federal Poverty Guidelines – 135%

Household Size	48 Contiguous States and D.C.	Alaska	Hawaii
1	\$15,889	\$19,872	\$18,292
2	\$21,505	\$26,892	\$24,745
3	\$27,121	\$33,912	\$31,198
4	\$32,737	\$40,932	\$37,651
5	\$38,353	\$47,952	\$44,104
6	\$43,969	\$54,972	\$50,557
7	\$49,585	\$61,992	\$57,010
8	\$55,201	\$69,012	\$63,463
For each additional person, add	\$5,616	\$7,020	\$6,453

Response to line 1210
RC Technologies
391674

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

Tribal Eligibility

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines.

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

The Company's Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. The Company's Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by the Company. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

Milestone Certification

Pursuant to 47 C.F.R. § 54.202(a) RC Technologies provides this certification that it is taking reasonable steps to provide upon reasonable request broadband speeds of at least 4 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to offerings in urban areas as determined in an annual survey as specified in Public Notice DA 15-470, and that requests for such service are met within a reasonable amount of time. Details for how RC Technologies is meeting its obligations for meeting its goals and required obligations are specified within the FCC Form 481 annual filing.
