5.8 The zip codes listed are not completely “non-rural.” For example, the Zip Code 57785 includes CenturyLink areas but also includes Golden West Telecommunications areas. Please provide more information on how the company will ensure that their customers are located in CenturyLink territory.

Response to 5-8: Upon designation as an ETC in South Dakota, Infiniti Mobile will perform a zip code/exchange mapping process, possibly using zip + 4 geocoding, to ensure that Infiniti Mobile only enrolls customers in non-rural exchanges within its designated service area.
