Fort Randall Telephone Company

Form 481 Line 920 thru 929

Description of Tribal Engagement

Pine Ridge Reservation

Fort Randall Telephone Company (operating as Mt. Rushmore Telephone Company) operates as a wireline telephone service provider in a portion of the Northwest corner of the Pine Ridge Reservation. We provide voice and data (internet) service to customers living in the community of Red Shirt and its surrounding area.

The Oglala Sioux Tribe Utility Commission (hereinafter "OSTUC") is the primary authority for regulating activities that take place within the reservation. In 2014, OSTUC established procedures for qualifying as an authorized utility. We engaged in the process of being authorized and received email correspondence that our Company is authorized to operate in OSTUC's jurisdiction on October 23, 2014. Subsequent to that date, we have corresponded by email and by telephone with OSTUC concerning activities on the reservation. For the covered period, we did not engage in any major initiatives in the area.

When projects come up where we need to perform work in the area, as with all other areas, we work with the local leaders and government organizations to receive the proper authorizations to conduct work on the reservation. During the covered period, we performed only maintenance work and no major initiatives were undertaken. Consequently, much of what we are reporting is not applicable to the covered period because no work was performed. Had we performed work on the reservation, we are certain that a number of the boxes would be completed as "Yes'.

In November, 2016 we reached out to OSTUC to discuss utility matters (telecommunications included) in the Red Shirt area. They indicated that the OSTUC was in a state of transition and they would contact us for a future meeting date. As of today, they have not reached out to us. Because of that, there has been no consultation concerning whether the services we offer are sustainable or feasible. Our customers in our serving area individually subscribe to our services and we have direct relationship with them. As a general rule, unless there is a need to specifically request funding for services outside our normal month service charges, we don't discuss our business models or share financial information with our end users. Since the customer has choices to use service from other providers, we believe the customer is more concerned with the price, reliability and how they can use our service than whether our business is sustainable or feasible.

The FCC increased funding for the Tribal Lifeline program and we completed adding that program in March, 2017. In April, 2017 we added the Broadband Tribal lifeline Credit for standalone broadband and bundled services.

REDACTED - FOR PUBLIC INSPECTION

Lastly, the FCC embarked on a funding program for rate-of-return telecommunications companies to improve broadband services over the next ten years. Ft. Randall Telephone Company agreed to be a part of that ten year project. In 2017, we have begun the process of improving the internet service throughout their serving area including the tribal lands.

Yankton Sioux Treaty area and Reservation

Fort Randall Telephone Company operates as a wireline telephone service provider in Charles Mix County in South-central South Dakota. We characterize this area as “treaty land” because much of it has been partitioned out years ago to private tribal and non-tribal individuals. There are still parcels owned and controlled by the Native American Entity, but much of it has been conveyed to individuals. We provide voice and data (internet) service to customers living in this area.

During the time covered by this filing, we talked by telephone with the area leadership concerning activities on the reservation. For the covered period, we did not engage in any major initiatives in the area.
