Subject: [EXT] Responses to Questions

Logan good morning. Here are the client's responses to your questions. Please let me know your thoughts.

Thanks-

AG

Q1: First, does Boomerang have a preference for the effective date of the relinquishment?

Though our preference would be to retain the December 15th relinquishment date, we completely understand that the Commission isn't meeting until December 19th. Therefore, we're happy to adjust the date accordingly to December 19th or 20th.

Q2: Second, it appears that as of December 1st, only 6 of the impacted subscribers had contacted Boomerang to make arrangements to port their services, leaving 7 subscribers who have not responded. Regardless of the relinquishment date, will these 7 customers lose service on December 15th?

No, Boomerang Wireless won't disconnect any affected customer until we receive the final order from the Commission approving our request to relinquish Verizon.
