Bandwidth Interstate Private Line Services)

SECTION 63.71 APPLICATION

Lumen Technologies, Inc. (Lumen) hereby applies for authority pursuant to Section 63.71(k) of the Federal Communications Commission's (Commission) rules, 47 C.F.R. § 63.71(k), and Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, to grandfather low-bandwidth interstate private line services (Affected Services) provided by certain Lumen Competitive Local Exchange Carrier (CLEC) and Interexchange Carrier (IXC) companies (Lumen CLEC/IXC Affiliates)¹ in all 50 states, Washington, D.C., and Puerto Rico.

Lumen submits the following information in support of its application:

1. Name and address of carrier

CenturyLink
100 CenturyLink Drive
Monroe, Louisiana 71203

¹ This application is filed on behalf of Lumen's CLEC and IXC affiliates listed in Attachment A.

2. Date of planned service discontinuance, reduction or impairment

As of June 1, 2025, or as soon thereafter as the necessary regulatory approvals can be obtained, the Lumen CLEC/IXC Affiliates will no longer offer the Affected Services to new customers, and existing customers of these services will be grandfathered as follows:

- Orders to install new services for new or existing customers will no longer be accepted.
- Moves, Adds & Change Orders (MACs) will no longer be accepted.
- Only disconnects will be accepted.
- Customers with services under existing contracts will continue to be supported as required until the expiration of the contract. Contracts will not be renewed.
- Service terms will expire at the end of the current applicable service term.

3. Points of geographic areas of service affected

Lumen seeks authority to grandfather the Affected Services all 50 states, Washington D.C., and Puerto Rico.

4. Brief description of the types of services affected

The Affected Services are point-to-point, dedicated, non-switched electrical or optical data transmission services. They provide a fixed capacity of bandwidth for the transport of a customer's digital communications traffic over a physical circuit between two Company owned and operated facilities on the Company Domestic Network (network). The services are offered either on an interLATA, Inter-city (Long Haul) or Intra-city (Metro) basis for transport of the customer's interstate communications traffic, with a variety of speeds and features. They offer transmission speeds ranging from the DS0 level up to and including Optical Carrier Network (OCN) speeds. Circuits at DS0, DS1, Fractional DS1 up to 512 kbps, E1, DS3, E3, OC3/STM1,

OC12/STM4, OC48/STM16 and OC192/STM64 levels may be available between any two POP locations.²

The Affected Services are offered via the following product names:

- Domestic Private Line (provided by CenturyLink Communications, LLC, formerly known as Qwest Communications, LLC)
- Metro Private Line (provided by CenturyLink Communications, LLC, formerly known as Qwest Communications, LLC)
- Private Line (provided by Level 3 Communications, LLC; Broadwing Communications, LLC; WilTel Communications, LLC)
- Transport – Point to Point (provided by Level 3 Telecom, formerly known as TW Telecom, LLC)
- Transport – Endlink ((provided by Level 3 Telecom, formerly known as TW Telecom, LLC)
- Transport Entrance Facility (provided by Level 3 Telecom, formerly known as TW Telecom, LLC)
- 3(Link) (provided by CenturyLink Communications, LLC and Level 3 Communications, LLC)
- Domestic Private Line Hub (provided by CenturyLink Communications, LLC, formerly known as Qwest Communications, LLC)
- Metro Private Line Hub (provided by CenturyLink Communications, LLC, formerly known as Qwest Communications, LLC)
- Passport Hub (provided by CenturyLink Communications, LLC, formerly known as Qwest Communications, LLC)
- Hub Facility (Level 3 Communications, LLC)
- Multiconnect (Level 3 Communications, LLC and Broadwing Communications, LLC)
- Private Dedicated Ring (Level 3 Communications, LLC)
- Private Network Transport (Level 3 Telecom, LLC, formerly known as TW Telecom, LLC)

CenturyLink is grandfathering these services because they are at the end of their product life cycle, as circuit demand has declined significantly. In many cases, the electronic equipment needed to support these services is no longer manufactured.

² Lumen acknowledges that the Wireline Competition Bureau recently waived the requirement to file an application with the Commission to grandfather any legacy voice or data service currently covered by 47 C.F.R. § 63.71(k)-(l). *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, Order, WC Docket No. 17-84, DA 25-251 (rel.

The public convenience and necessity will not be adversely affected by the grandfathering of the Affected Services, as existing customers have been given significant notice of these changes, and potential customers of these services can seek alternative service arrangements that offer the same or superior capabilities, such as Lumen's Ethernet services and similar services offered by numerous other providers.

5. Brief description of the dates and methods of notice to all affected customers

Lumen notified its retail customers of the planned grandfathering of the Affected Services in a letter sent via United Service Parcel Service or U.S. Mail on April 1, 2025.³ Those customers were notified that the proposed grandfathering would take effect on June 1, 2025, or as soon after that date as authorized by the relevant regulatory commissions. Copies of the two forms of customer notification letters Lumen used are attached hereto. (See Attachments B and C.)

6. Whether the carrier is considered dominant or non-dominant with respect to the services to be discontinued, reduced or impaired

The Lumen CLEC/IXC Affiliates are non-dominant carriers with regard to the services to be grandfathered.

7. Service

In accordance with 47 C.F.R. § 63.71(a), Lumen has mailed a copy of this application to the Governor and public utility commission of each affected state identified in Paragraph 3 above, to any federally-recognized Tribal Nations with authority over the Tribal lands in the

Mar. 20, 2025). Some of the services identified in this application include speeds that fall within the scope of those rules and therefore are exempt from the Section 63.71 filing requirement.

³ CenturyLink also notified its wholesale customers of the planned grandfathering of the Affected Services.

geographic areas identified in Paragraph 3 above, as well as to the Special Assistant for Telecommunications under the Secretary of Defense.
