For the rural areas where the Petitioners will not serve the entire study areas, I move that the Commission reject the Petitioners' request that they be designated throughout their licensed area which would allow the Petitioners to serve only parts of some wire centers. I move that instead the Commission accept the Petitioners' alternative proposal. Under that alternative proposal, the Petitioners will serve entire center wires and to the extent small portions of some of these wire centers fall outside the Petitioners' licensed areas, the Petitioners will serve these areas through resale or other methods.

These designations will require redefining the rural company's study areas. Thus these designations are subject to the FCC agreeing with the Commission on the redefinitions. With respect to these redefinitions, I move that the Commission not redefine each affected company's study area into individual wire centers, but instead redefine into groups of wire centers that the Petitioners propose serving under their alternative proposal.

For example, for James Valley, the Commission should redefine James Valley study area by creating a service area comprised of Andover and Bristol and

which they intend to offer their universal service offerings in South Dakota. Excuse me. I should have said -- at the beginning of that sentence I should have said No. 2. The agreements shall be consistent with the Commission's service quality rules and shall also advise customers that they may qualify for financial assistance under the federal Link-up and Lifeline programs and provide basic information on how to apply.

No. 3, The Petitioners agreed to disputes being resolved by the Commission. The service agreement shall state that any disputes or claims arising under the service agreement may be subject to the Commission's Complaint jurisdiction at the consumer's option. Thus, the Petitioners' service agreements shall not compel submission of disputes to arbitration which would deprive customers of access to the Complaint procedures of SDCL Chapter 49-13 and ARSD Chapter 20:10:01.

4, The Petitioners have been designated as an ETC in portions of some rural telephone company wire centers that lie outside the boundaries of the areas in which Petitioners have been licensed by the FCC to provide wireless service. The Petitioners shall provide service to requesting

the remaining wire centers in James Valley's study area for which RCC is not receiving ETC designation would be separate service areas. I am recommending this in order to lessen the concern that a competitive ETC could seek to withdraw from serving certain high-cost, low-density wire centers but continue to serve less costly wire centers.

I further move that the Commission not adopt the FCC's Order on the Joint Board's recommendations since that Order was not released until after the hearing and the briefing had been completed. Instead I move that the Commission impose the following conditions on these ETC designations:

No. 1, On or before August 1, 2005 the Petitioners shall file their advertising plans and materials for South Dakota that they plan to use to inform consumers of their universal service offerings. Included in these advertising plans and materials shall be the Petitioners' advertising plans and materials regarding the Lifeline and Link-up programs and the forms for applying for Lifeline and Link-up in South Dakota.

On or before August 1, 2005 the Petitioners shall file their service agreements pursuant to

customers in such areas by extension, resale, or other arrangements with other carriers, consistent with Section 214(e)(1)(A). The service shall be provided at prices and upon terms and conditions that are comparable to what is provided within the Petitioners' licensed areas.

5, Consistent with their obligations pursuant to Section 214(e)(1), the Petitioners shall continue to build out facilities and extend service to meet the statutory objective of offering service "throughout out the service area for which the designation is received."

6, In conjunction with but separate from and in addition to their annual certification files under 47 C.F.R Subsection 54.313 and 54.314 the Petitioners shall submit records and documentation on an annual basis detailing their progress towards meeting the statutory objective of offering service throughout the service areas for which the designation is received. At a minimum, such information shall detail the location and cost of material capital expenditures made by the Petitioners within the State of South Dakota during the preceding annual period and shall include their proposed capital budgets for the State of South
